HILLENMEYER NURSERIES
GEORGETOWN ROAD, LEXINGTON, KENTUCKY

NURSERYMEN - HORTICULTURISTS - LANDSCAPE ARCHITECTS

When to Plant

Shade Trees, Shrubs, and Fruit Trees, when handled with bare roots, are best planted in the fall after we have had sufficient frost to kill the foliage, or in the spring when dormant.

Evergreens, Shade Trees and Shrubs, when dug Balled and Burlapped (B&B), may be planted almost any time during the year if you can give them proper attention such as watering, cultivation and mulching.

Asparagus and Small Fruits may be planted in the fall if there is sufficient moisture and your soil is in good condition, otherwise plant in early spring.

Delivery

No charge for local delivery in city and sub-divisions adjacent thereto. Truck delivery beyond this can usually be arranged satisfactorily, depending on quantity and distance. On orders to be shipped, prices are f.o.b. Lexington depots.

GUARANTEE

On orders shipped, called for, or delivered, we guarantee every item to be true to name, up to grade and in good condition when it leaves our nursery. As there are so many forces beyond our control, such as weather, soil and care, which may cause stock to die, we cannot be responsible for losses. However, we will absolutely refund or replace without charge any stock which does not reach you in good condition, provided you report within 10 days after receipt of order,

and it has not been damaged by the delivering carrier.

On orders which we plant, we guarantee to replace once, at one-half price all nursery stock which fails to survive the first growing season, **providing the account is paid when due.** Cost of labor on replacements is extra. However, you are obligated to give reasonable care to the material, such as watering, spraying, cultivating, etc.

Hillenmeyer's Beautiful Evergreens

All Our Evergreens are Dug B&B

B&B means the plants are dug with a ball of earth and wrapped in burlap. This is the safest and best way to move them.

SIZES: On spreading type evergreens, sizes listed indicate width. On upright types, the sizes indicate height.

Abies - Fir

ABIES CONCOLOR (*Silver or White Fir*). The best of the Firs, and rivals Colorado Blue Spruce in showiness. In colors it ranges from pale blue-green to blue, the needles being attractively distributed around the branches. Of comparatively slow growth but as hardy as an Oak.

	Each		Each
3 to 4 ft.	\$8.00	4 to 5 ft.	\$10.00
		5 to 6 ft.	12.50

Chamaecyparis (False Cypress)

A group of beautiful evergreens including some of the most unique and interesting trees in cultivation. Valuable in garden or foundation planting. Prefers a moist, acid soil but will grow almost anywhere when not too dry or alkaline.

CHAMAECYPARIS pisifera filifera (*Thread-Branded Cypress*). One of the best dwarf evergreens. Unusual foliage, drooping and graceful, resembling cords of green. Compact, fine in color both winter and summer.

	Each
18 to 24 in.	\$4.00

Juniperus - Juniper

JUNIPERUS communis Ashfordi (*Ashford's Juniper*). Columnar with silvery green foliage. Much like Irish Juniper except not quite so compact or pointed and larger in diameter. Holds color well in winter.

	Each		Each
2 to 3 ft.	\$3.00	3 to 4 ft.	\$4.50

J. communis depressa plumosa (*Purple Spreading Juniper*). A very low spreading variety, which lies close to the ground. In summer it has a silvery reflex to the otherwise gray-green foliage. In fall and winter assumes a purplish cast that is unusual in evergreens. Fine for rockeries or low plantings.

	Each		Each
18 to 24 in. ..	\$5.00	2 to 2½ ft.	\$6.00
		2½ to 3 ft.	7.50

J. communis hibernica (*Irish Juniper*). A distinct, slender, columnar form with glaucous green foliage. The numerous upright branches are closely adpressed. Its formality is invaluable where a narrow plant must or should be used. Needs no shearing.

	Each		Each
2 to 3 ft.	\$4.00	3 to 4 ft.	\$5.00

J. chinensis compacta. A low, compact form of Juniper pfitzeriana, which does not grow so large. Can be used in more restricted areas.

	Each		Each
15 to 18 in. ..	\$4.00	2 to 2½ ft. ..	\$6.00
18 to 24 in. ..	5.00	2½ to 3 ft. ..	7.00

J. chinensis pfitzeriana (*Pfitzer Juniper*). The most popular of all the spreading Junipers. The branches grow horizontally with slightly drooping terminals. The foliage is a bright gray-green which is retained throughout the winter. Desirable because of its form, hardiness, color, and ability to grow in almost any location.

	Each		Each
15 to 18 in.	\$3.50	2 to 2½ ft.	\$5.50
18 to 24 in.	4.50		

J. chinensis pfitzeriana, BLUE (*Blue Pfitzer*). A soft blue strain of the regular Pfitzer Juniper. Slower and lower growing than Juniper Hetzi, which it resembles in color. An outstanding addition to the popular Juniper family.

	Each		Each
2½ to 3 ft.	\$7.00	3 to 3½ ft.	\$8.00

J. chinensis glauca hetzi. A spreading type, similar to Pfitzer Juniper, except more vigorous, and foliage is a soft blue.

	Each		Each
2 to 2½ ft.	\$5.50	2½ to 3 ft.	\$7.00

J. excelsa stricta (*Spiny Greek Juniper*). An unusually attractive, dwarf pyramidal evergreen with compact, bluish green foliage. A valuable small, compact plant which can be used on either side of steps, walks or planted in urns.

	Each		Each
15 to 18 in.	\$2.50	2 to 2½ ft.	\$4.00
18 to 24 in.	3.00		

Juniperus Communis Hibernica

Juniperus Chinensis Pfitzeriana

Taxus - YEWE

THE DISEASE RESISTANT EVERGREEN

The rich, dark green Yew continues to be the favorite among the evergreens. Their hardiness, resistance to diseases and insects and ease of transplanting, make them deserving of their popularity. There are many shapes and types of growth—upright, semi-upright, columnar, spreading, dwarf and globe—which make them suitable for almost any landscape requirement. In foundation planting they are unsurpassed. They stand pruning very well and make desirable hedges—dwarf, intermediate or tall. Although slower growing than some other varieties they make desirable specimen plants. We have one of the largest stocks in the South and invite your inspection of our plants of real quality.

*Taxus Wardi*

TAXUS cuspidata (Spreading Yew). Low, spreading type which is broader than high. Can be pruned into compact form to look like Boxwood or made into a hedge if desired. Withstands heat and cold and is perfectly hardy in our climate. Can be grown in sun or shade. One of the finest spreading evergreens.

Each		Each	
15 to 18 in.	\$5.25	2½ to 3 ft.	\$12.00
18 to 24 in.	6.95	3 to 3½ ft.	15.00
2 to 2½ ft.	8.95	3½ to 4 ft.	20.00
		4 to 4½ ft.	25.00

T. cuspidata browni (Brown's Yew). A selected seedling of *Taxus cuspidata*. Normally grows somewhat taller than its spread. Needles short, compact and of good deep, rich green. Excellent for hedge or specimen. Can easily be pruned into globe form.

Each		Each	
15 to 18 in.	\$5.25	2 to 2½ ft.	\$8.95
18 to 24 in.	6.95		

T. cuspidata capitata (Upright Yew). An upright, cone-shaped form of medium growth. Desirable for foundation planting or hedge. The most desirable variety of this type.

Each		Each	
2 to 2½ ft.	\$ 8.00	4½ to 5 ft.	\$17.50
2½ to 3 ft.	9.50	5 to 5½ ft.	21.00
3 to 3½ ft.	11.00	5½ to 6 ft.	24.00
3½ to 4 ft.	13.00	6 to 7 ft.	28.00
4 to 4½ ft.	15.00	7 to 8 ft.	35.00

T. cuspidata intermedia. An interesting type. Faster growing than *T. nana*, slower than *T. cuspidata*. Good color.

Each		Each	
15 to 18 in.	\$5.25	2 to 2½ ft.	\$9.75
18 to 24 in.	7.50		

T. cuspidata nana (Dwarf Yew). Of extremely slow growth, forming a low, irregular and picturesque outline. Can be used as a specimen, hedge or dwarf edging.

Each	
15 to 18 in.	\$7.00

T. baccata repandens (Spreading English Yew). A low growing, rich green, spreading plant. Prefers shade, partial or dense.

Each	
15 to 18 in.	\$6.25
18 to 24 in.	8.25

Sizes

On spreading type evergreens, sizes listed indicate width. On upright types, the sizes indicate height.

TAXUS media hatfieldi (Hatfield Yew). A rather dwarf, compact, columnar form with upright branches. Good dark green color. Excellent for low, narrow hedge or to plant in a restricted area.

Each		Each	
18 to 24 in.	\$ 6.50	3 to 3½ ft.	\$12.50
2 to 2½ ft.	8.00	3½ to 4 ft.	15.00

T. media hicksi (Hicks' Yew). A semi-upright type which can be pruned into different forms such as a globe, column or as a hedge. Dark, rich green through the winter. Multiple stems.

Each		Each	
18 to 24 in.	\$ 6.50	3½ to 4 ft.	\$15.00
3 to 3½ ft.	12.50		

T. media wardi (Ward's Yew). A low growing type of spreading Yew. Good color. Desirable for low plantings.

Each		Each	
15 to 18 in.	\$5.25	2 to 2½ ft.	\$8.95
18 to 24 in.	6.95		

Globe Taxus

This is a compact form of *Taxus*, made globular by pruning. Hardier than Boxwood, which it resembles in shape but not in texture.

Each		Each	
18 to 24 in. ..	\$ 8.00	3 ft. spec. ...	\$20.00
2 to 2½ ft. ..	10.00	3½ ft. spec. .	25.00
2½ ft.	15.00	4 ft. spec. ...	30.00

*Taxus Cuspidata Capitata**Taxus Hicksi**Taxus Cuspidata*

Pinus - Pine

PINUS resinosa (*Red or Norway Pine*). A valuable large, quick growing tree, useful as a specimen or for screening. Needles 4 to 6 inches, glossy green. Hardy and holds a good color throughout the winter.

	Each
3 to 4 ft.	\$ 7.00
4 to 5 ft.	9.00
5 to 6 ft.	12.00
6 to 7 ft.	15.00

P. strobus (*White Pine*). One of our most beautiful native Evergreens, growing into a tall, majestic specimen. Needles 3 to 4 inches long, soft and flexible. Grows well in both dry and moist soil. It is a beautiful object planted alone.

	Each
2 to 3 ft.	\$ 5.00
3 to 4 ft.	7.00
4 to 5 ft.	9.00
5 to 6 ft.	12.00
6 to 7 ft.	15.00

P. sylvestris (*Scotch Pine*). Very quick to re-establish itself, vigorous, and has ability to grow luxuriantly in high and dry ground. Its needles are shorter than either White or Red Pine, its habit more compact, the foliage dark green.

	Each
2 to 3 ft.	\$ 5.00
3 to 4 ft.	7.00
4 to 5 ft.	9.00
5 to 6 ft.	12.00

Experts Tell Us

We have the finest Evergreens to be found in any nursery. Seeing is believing.

Pinus Strobus

Picea - Spruce

PICEA abies (*Norway Spruce*). The most popular of all the Spruce. Tall, pyramidal, of rapid growth, with horizontal branches and dark green foliage. Valuable as a specimen, for grouping or as windbreaks.

	Each
2 to 3 ft.	\$ 5.00
3 to 4 ft.	7.00
4 to 5 ft.	9.00
5 to 6 ft.	12.00
6 to 7 ft.	15.00

P. pungens Kosteriana. Sorry, sold out.

Pseudotsuga - Fir

PSEUDOTSUGA douglasi (*Douglas Fir*). Soft green foliage, resembling the Spruce, but of a blue cast.

	Each		Each
3 to 4 ft.	\$7.00	4 to 5 ft.	\$ 9.00
		5 to 6 ft.	12.00

Thuja - Arbor-Vitae

One of the most popular and extensively planted Evergreens. To many, they are known as "pressed Cedars." While they prefer a moist soil and ample water they will grow almost anywhere. They vary in color from green to yellow and in shape from globe to pyramidal.

THUJA occidentalis globosa (*Globe Arbor-Vitae*). Usually develops into a perfect globe-shaped plant, the spread equaling the height. They are largely used for front-line planting, in urns, vases, on either side of a step.

	Each		Each
12 to 15 in.	\$3.00	18 to 24 in.	\$4.00
15 to 18 in.	3.50	2 to 2½ ft.	5.00

T. occidentalis pyramidalis (*Pyramidal Arbor-Vitae*). Attractive, narrow at its base, and retaining its shape without shearing. In front of pillars, background of group plantings and urns, no Evergreen is quite so popular.

	Each		Each
2½ to 3 ft.	\$3.50	4 to 4½ ft.	\$5.00
3 to 3½ ft.	4.00	4½ to 5 ft.	5.50
3½ to 4 ft.	4.50		

T. occidentalis (*Eastern Arbor-Vitae*). One of the best. Pyramidal, compact, vigorous and can be used in foundation plantings, hedges or as specimens.

	Each		Each
2½ to 3 ft.	\$4.00	3½ to 4 ft.	\$5.00
3 to 3½ ft.	4.50	4 to 5 ft.	5.50

T. orientalis aurea nana (*Berckmann's Golden Arbor-Vitae*). A beautiful, dwarf, compact variety of golden color. Valuable for urns, small gardens, cemetery lots or brightening up foundation plantings. Grows about twice in height to width.

	Each		Each
18 to 24 in.	\$4.00	2½ to 3 ft.	\$5.00
2 to 2½ ft.	4.50	3 to 3½ ft.	6.00

T. orientalis elegantissima (*Yellow Column Arbor-Vitae*). A comparatively rapid growing Oriental variety. With bright yellow color throughout the year. Desirable for contrast.

	Each
2 to 3 ft.	\$4.00

T. orientalis fruitlandi (*Fruitland's Arbor-Vitae*). Similar to orientalis aurea nana in habit of growth but has dark green, rather than yellow foliage.

	Each
2 to 2½ ft.	\$4.50
2½ to 3 ft.	5.00
3 to 3½ ft.	6.00

Tsuga - Hemlock

A popular evergreen. Grows rather rapidly, can be pruned to almost any shape, will tolerate sun and partial shade. Has good color winter and summer.

	Each
2 to 3 ft.	\$ 4.00
3 to 4 ft.	6.00
4 to 5 ft.	8.00
5 to 6 ft.	11.00
6 to 7 ft.	15.00
7 to 8 ft.	20.00

Thuja Orien'alis Aurea Nana

Ilex Rotundifolia (Listed on page 6)

Broad-leaf Evergreens

SO MANY home owners do not know what this title means! Think of the Hollies and the Laurels as examples. They may be used as specimen plantings with tall evergreens or in the shrub border.

Abelia

ABELIA grandiflora (*Glossy Abelia*). A desirable, medium growing semi-evergreen shrub for foundation planting, filling corners, curves, or can be used as a hedge. The small, glossy leaves remain on most of the winter. Small, dainty blush-white blossoms are borne on rather arching branches from May until frost. We like Abelia.

Each	Each
18 to 24 in., B&B\$2.50	2 to 3 ft., B&B\$3.00

Barberry

BERBERIS julianae. The best of the evergreen Barberries. Holds its narrow green leaves on golden stems throughout the winter.

Each	Each
18 to 24 in., B&B\$4.00	2½ to 3 ft., B&B\$6.00
2 to 2½ ft., B&B 5.00	3 to 4 ft., B&B 7.50
B. mentorensis . This semi-evergreen, rather upright Barberry is useful as an individual specimen or as a hedge. Does well in dry locations.	
Each	Each
18 to 24 in., B&B\$2.50	2½ to 3 ft., B&B\$3.50
2 to 2½ ft., B&B 3.00	(Deduct 50c each for bare rooted)

Buxus Sempervirens (Common Box)

With lustrous, green foliage, it is a plant that can be used in many ways and lends an air of dignity and permanence to its surroundings. As a hedge it gives character; in an informal group it has no rivals; it may be clipped or trained to pyramid form, globe shape or allowed to grow naturally. Box is used freely in window boxes, urns, and for garden edgings. Should be planted in good soil and fed with sheep or cow manure. Cultivate lightly and do not disturb the roots.

SPECIMEN PLANTS

Each	Each
15 to 18 in., B&B\$5.00	20 to 24 in., B&B\$ 8.50
18 to 21 in., B&B 6.50	24 to 27 in., B&B 11.00

Cotoneaster

COTONEASTER apiculata. Low spreading, semi-evergreen shrub. Red berries in fall.

Each
12 to 15 in. (Gallon Cans)\$2.50

Euonymus

EUONYMUS patens (*Kiautschovicus*) (*Spreading Euonymus*). A valuable introduction from China. Leaves medium size, oblong, rich green, which persist throughout the winter. Small, white flowers in June followed by coral berries similar to our native Bittersweet. A rather spreading shrub which will grow in either sun or shade. One of our most useful Broad-leaf Evergreens.

E. radicans erecta. A very desirable Broad-leaf Evergreen; an upright type, leaves smaller than E. patens, and dark green. Ideal for hedges or individual plantings.

Prices on Above Varieties of Euonymus:

Each	Each
15 to 18 in., B&B\$2.00	2 to 2½ ft., B&B\$3.00
18 to 24 in., B&B 2.50	
E. fortunei vegetus . A rather slow growing, round-leaf evergreen plant. Prolific fruiter. Fruit remains several weeks in fall.	
Each	Each
15 to 18 in., B&B\$3.50	18 to 24 in., B&B\$4.50

Ilex - Holly

ILEX cornuta burfordi. Dark green, glossy, almost spineless leaves. Not real hardy. Plant in protected places. Not available in 15 to 18 in. size.

I. crenata rotundifolia. A rather dwarf spreading variety of Japanese Holly, with glossy, nearly round leaves. One of the hardiest of the species and excellent for foundation planting or hedge.

I. crenata convexa. A compact spreading evergreen shrub with arched branches and small convex leaves. Not available in 2 to 2½ ft. size.

I. glabra (*Inkberry*). A rather loose growing evergreen shrub which will succeed in either sun or shade. Leaves turn a somewhat purple shade in the fall. When planted in mass the shining black berries are most attractive. One of the hardiest varieties.

Prices of Above Varieties of Ilex:

Each
15 to 18 in.\$4.00
18 to 24 in., B&B 5.00
2 to 2½ ft., B&B 6.50

I. opaca (*American Holly*). Our native Holly which supplies the garden with year 'round greenness and richness and is prized so much at Christmas time because of its large, glossy leaves and striking red berries. Stands pruning well and can therefore be used as a specimen, in foundation plantings or as a hedge. Some trees bear berries (pistillate, female), while others (staminate, male) do not. It is necessary that you have a male Holly growing close by or one should be planted in every group for pollination. They will grow in partial shade or in the open.

Non-Berried	Berried
4 to 5 ft., B&B\$10.00	\$15.00
5 to 6 ft., B&B 12.00	18.00
6 to 7 ft., B&B 15.00	22.50
7 to 8 ft., B&B 20.00	Sold out

Ilex Opaca

Magnolia

MAGNOLIA grandiflora (*Southern Magnolia*). The popular evergreen tree Magnolia of the South. Waxy leaves. The large white blossoms appear on older trees in midsummer. Not always hardy in Kentucky, but can be grown in protected places. Prefers rich soil.

Each	Each
2 to 3 ft., B&B\$5.00	4 to 5 ft., B&B\$10.00
3 to 4 ft., B&B 7.50	

Mahonia

MAHONIA aquifolium (*Oregon Grape*). The thick, glossy leaves resemble Holly, but are much larger and most attractive. Makes a compact bush, and when pruned severely every few years will become an indescribable mass of green and bronze foliage. Yellow blossoms in June followed by blue-black berries. Thrives in shade.

Each	Each
2 to 3 ft., B&B\$5.00	3 to 4 ft., B&B\$6.00

Nandina

NANDINA domestica. A semi-evergreen shrub with numerous, upright reed-like stems. Each cane has a tuft of spreading light green foliage except the very young growth, which is tinted pink to copper. In August, white panicles of flowers appear, followed by masses of red berries in trusses. In autumn, strong coppery tints cover the foliage, making a most pleasing combination. While not entirely evergreen, it is nearly so.

Each	Each
18 to 24 in., B&B\$3.00	2½ to 3 ft., B&B\$4.00
2 to 2½ ft., B&B 3.50	3 to 4 ft., B&B 4.50

Osmanthus

OSMANTHUS americanus (*Devilwood Osmanthus*). A rapid growing shrub with upright branches and open formation. The leaves are long and narrow and it has small, fragrant white or cream flowers in May. Not generally listed but we think it one of our best hardy broad-leaf shrubs.

Each	Each
2 to 3 ft., B&B\$5.00	3 to 4 ft., B&B\$6.00

Prunus (Laurel Cherry)

PRUNUS caroliniana (*Carolina Laurel Cherry*). An attractive evergreen shrub with glossy, oval-like, green leaves and upright branches. Grows to a height of 7 to 9 feet. Very ornamental because of its good color.

Each	Each
2 to 3 ft., B&B\$3.50	4 to 5 ft., B&B\$5.50
3 to 4 ft., B&B 4.50	

P. laurocerasus schipkaensis (*Schipka Laurel Cherry*). A beautiful Broad-leaf Evergreen. Its slick, glossy leaves are most attractive, but will freeze from time to time.

Each	Each
18 to 24 in.\$5.00	2 to 2½ ft.\$6.00

P. laurocerasus zabeliana (*Zabel Laurel*). Slick glossy leaves on a plant of spreading velvet. Hardier than any of the English Laurels, but will freeze periodically.

Each	Each
2 to 2½ ft.\$6.00	2½ to 3 ft.\$7.00

Pyracantha

PYRACANTHA coccinea Lalandi (*Laland Firethorn*). A picturesque, upright, thorny shrub with Box-like evergreen foliage. Has attractive white flowers in April followed by fiery orange-red fruits which last well into the winter. May be used as a specimen but is particularly attractive when trained against a wall where the rich deep green foliage acts as a splendid foil for the amazing quantities of berries. A spectacular, yet dignified shrub, for your garden.

Each
2 to 2½ ft. (In Gallon Cans)\$3.00

Viburnum

VIBURNUM burkwoodi (*Burkwood Viburnum*). A recent introduction and often called the "evergreen Carlesl." The glossy green leaves are retained most of the winter, though most of them will fall as spring approaches. The pink-tinged, white blossoms are borne in clusters in April and are exceedingly fragrant. An outstanding, hardy variety which merits a place in any garden or planting.

Each
2 to 3 ft., B&B\$5.00
2 to 4 ft., B&B 6.00
4 to 5 ft., B&B 7.00

V. rhytidophyllum (*Leather-Leaf Viburnum*). A vigorous shrub with large, thick, leathery leaves which are deeply veined. The foliage somewhat resembles the Rhododendron. Has clusters of small, yellowish white blossoms in May, followed by red berries changing to shining black as the season advances. Will grow in almost any location.

Each
2 to 3 ft., B&B\$4.00
3 to 4 ft., B&B 5.00

Flowering and Ornamental Shrubs

HERE is a place for flowering shrubs around every home—cottage, mansion or palace. A corner needs a little color, a foundation wall needs to be concealed, a garage should be screened. In all these places flowering shrubs are adaptable and useful.

The size shown after each shrub indicates the approximate height it should be expected to attain.

ABELIA grandiflora. (See page 6.)

Acanthopanax

ACANTHOPANAX sieboldianus (*Five-Leaved Aralia*). 4 to 6 ft. An interesting and very satisfactory shrub for planting in a shady place or under city conditions. Branches upright, prickly, arching and bearing bright green leaves in fives. If you have a troublesome situation, poor soil, shade or other adverse conditions, give this shrub a trial.

Each		Each	
2 to 3 ft.	\$1.25	4 to 5 ft.	\$1.75
3 to 4 ft.	1.50		

Aralia

ARALIA spinosa (*Devil's Walkingstick*). 10 to 15 ft. A large, vigorous shrub or small tree giving semi-tropical effect. The stiff, erect, very prickly stems bear compound leaves. The leaflets are small, giving a feathery effect to the whole plant. Small white flowers in July or August.

Each		Each	
3 to 4 ft.	\$2.50	7 to 8 ft.	4.00
6 to 7 ft.	\$3.00		

Aronia - Chokeberry

ARONIA arbutifolia brilliantissima (*Brilliant Chokeberry*). 3 to 5 ft. A useful shrub combining good habits of growth, attractive summer and fall foliage, showy flowers and brilliant fruits. The white flowers in early May are followed by fruit which becomes brilliant red in the fall and is very persistent. One of our best berry-bearing shrubs. Will grow in sun or partial shade but requires ample moisture.

Each		Each	
18 to 24 in.	\$1.50	3 to 4 ft.	\$2.00
2 to 3 ft.	1.75		

Berberis - Barberry

BERBERIS thunbergi (*Japanese Barberry*). 3 to 4 ft. Low, compact shrub with horizontal or arched branches. Twigs thorny, making it ideal for an almost impenetrable hedge when mature. If left unpruned it will develop into a graceful, mound-like plant. The small green leaves come out early in the spring, along with the small yellow flowers. Will grow in almost any location. Red berries.

Each		Each	
15 to 18 in.	\$1.00	2 to 2½ ft.	\$1.50
18 to 24 in.	1.25		

B. thunbergi atropurpurea (*Red Leaf Barberry*). 3 to 4 ft. Resembles the Japanese Barberry in growth, but the foliage is brilliant blood-red in spring. The color holds all summer in sun, but in shady places it becomes a beautiful bronzy green. Its winter charm is enhanced by red berries that remain until spring.

Each		Each	
18 to 24 in.	\$1.25	2 to 2½ ft.	\$1.50

B. atropurpurea nana (*Crimson Pygmy Barberry*). This miniature form of Red Barberry came from Holland. Usually broader than tall, and makes an excellent showy dwarf plant. Plant in full sunlight for good color.

Each		Each	
12 to 15 in.	\$1.75	15 to 18 in.	\$2.25

Barberry mentorensis. See page 6.

Buddleia - Butterfly Bush

There should be a place for these continuous summer-blooming shrubs around every home. Their long, pointed spikes of various shades resemble a Lilac though they are in no way related. Easy of culture. Often freezes to the ground unless protected, but will come back year after year.

BUDDLEIA, Charming. Soft pink; very desirable.

B., DUBONNET. Claret-purple. Nice.

B., Ile de France. Rosy violet-purple. Vigorous and floriferous.

Each		Each	
Prices of above 3:			
18 to 24 in.	\$1.25	2 to 3 ft.	\$1.50

Callicarpa

CALLICARPA dichotoma (*Purpurea*) (*Purple Beautyberry*). 5 ft. One of our very few shrubs with attractive violet-blue fruit in the fall. Slightly slender, upright, spreading, with attractive medium green foliage. Flat clusters of pinkish flowers in late summer. As the branches are not always hardy, it is best to use in a situation where they may be cut to the ground each spring.

Each		Each	
3 to 4 ft.	\$1.25	4 to 5 ft.	\$1.50

Calycanthus

CALYCANTHUS floridus (*Sweet Shrub*). 6 to 8 ft. Few shrubs have persisted as well as the Calycanthus. Always found in "Grandma's" garden. Its sweet, aromatic reddish brown flowers are most appreciated. The blossoms are produced in late spring followed by large pods, filled with smooth brown seed.

Each		Each	
18 to 24 in.	\$1.50	3 to 4 ft.	\$2.00
2 to 3 ft.	1.75		

Chionanthus - White Fringe

CHIONANTHUS virginiana. 12 to 15 ft. Use as a large shrub or small tree. Its large, somewhat glossy leaves are attractive throughout the summer and add a pleasing bright yellow to the array of autumn colors. Large clusters of drooping white flowers hang from the ends of the twigs in late spring. Dark blue fruit in August. Prefers a moist, acid soil.

Each		Each	
18 to 24 in.	\$1.50	3 to 4 ft.	\$2.50
2 to 3 ft.	2.00		

Chaenomeles - Flowering Quince

CHAENOMELES lagenaria (*Cydonia japonica*). (*Common Flowering Quince*). 5 to 8 ft. One of our best early blooming shrubs. Upright, spreading, with attractive foliage. The bell-shaped blossoms are usually from a light pink to scarlet. They open before the leaves appear and are borne all along the branches. Grows in most any location and can be used as a hedge, screen or specimen.

Each		Each	
18 to 24 in.	\$1.50	2 to 3 ft.	\$1.75

Cornus - Dogwood

CORNUS florida (*White Flowering Dogwood*). See page 10.

C. alba sibirica (*Siberian Dogwood*). 6 to 8 ft. Greenish white flowers in June. Grown because of its conspicuous red winter twigs. Cutting out old wood increases brilliance of new growth.

Each		Each	
3 to 4 ft.	\$1.75		

C. rubra (*Pink Flowering Dogwood*). See page 10.

C. mas (*Corneliancherry Dogwood*). 10 to 15 ft. Attractive large shrub or small tree. Its small, yellow blossoms are hardy and appear a few days ahead of the Forsythia. They are followed by large, brilliant, cherry-like fruit, ripening in midsummer. Does well in almost any soil.

Each		Each	
2 to 3 ft.	\$1.25	4 to 5 ft.	\$2.00
3 to 4 ft.	1.50	5 to 6 ft.	2.50

Cotinus - Smoke Tree

COTINUS cogggria rubra (*Smoke Tree*). 10 to 12 ft. An old favorite having unusual and attractive red foliage when growth starts. When in bloom in June the tree is virtually a mist of minute smoky lavender flowers, suggesting a cloud of smoke.

Each		Each	
3 to 4 ft.	\$1.50	4 to 5 ft.	\$2.00

Cotoneaster

COTONEASTER divaricata (*Spreading Cotoneaster*). 4 to 5 ft. A semi-evergreen variety with good foliage and scarlet fruit.

Each		Each	
18 to 24 in., B&B	\$2.00	3 to 4 ft., B&B	3.00
2 to 3 ft., B&B	\$2.50		

Deutzia

DEUTZIA gracilis (*Slender Deutzia*). 2 to 3 ft. A graceful, dwarf shrub which covers its arching branches with small racemes of white flowers in early spring. Does well in sun or shade.

Each		Each	
12 to 15 in.	\$1.25	18 to 24 in.	\$1.75
15 to 18 in.	1.50		

D. lemoinei (*Lemoine Deutzia*). 3 to 4 ft. An upright shrub that is exceedingly free blooming in April and May, with stems completely covered with white blossoms. Stems droop as they age.

Each		Each	
18 to 24 in.	\$1.25	2 to 3 ft.	\$1.50

D. scabra, Pride of Rochester. 6 to 8 ft. Covered in June with pinkish white, showy flowers. Hardy, upright, distinct in form, adaptable to all locations and soils.

Each		Each	
2 to 3 ft.	\$1.25	4 to 5 ft.	2.00
3 to 4 ft.	\$1.50		

Elaeagnus - Russian Olive

ELAEAGNUS angustifolia (*Russian Olive*). 15 ft. An unusual shrub with dark green bark and silvery foliage. Fragrant, deep golden yellow flowers in May followed by ornamental Olive fruit. Valuable for contrast with green foliage plants.

Each		Each	
2 to 3 ft.	\$1.25	3 to 4 ft.	\$1.50

Euonymus

EUONYMUS alatus compactus (*Dwarf Winged Euonymus*). 5 to 6 ft. Similar to the regular Winged Euonymus except that it is more compact, does not grow so large and colors more brilliantly in the fall. An outstanding shrub.

Each		Each	
18 to 24 in.	\$2.00	2 to 3 ft.	\$3.00

E. alatus (*Winged Euonymus*). 6 to 8 ft. Attractive plant with large corky ridges, colors pink in fall, not scarlet like the Dwarf Winged Euonymus.

Each		Each	
2 to 3 ft.	\$2.50	3 to 4 ft.	\$3.00

E. americanus (*Brook Euonymus*). 7 to 8 ft. Has attractive pink fruit in the fall, somewhat resembling a Strawberry. While it grows under ordinary conditions its native habitat is moist locations.

Each		Each	
18 to 24 in.	\$1.25	2 to 3 ft.	\$1.50

E. europaeus (*European Euonymus*). 10 to 15 ft. A tall, slender shrub with green bark and deep green foliage that colors in autumn. Prized for the wealth of coral fruit in fall.

Each		Each	
3 to 4 ft.	\$1.75	4 to 5 ft.	\$2.00

E. patens (*Kiautschovicus*) (*Evergreen Wahoo*). See page 6.

E. yedoensis (*Yeddo Euonymus*). 6 to 8 ft. A showy Asiatic shrub with small yellow flowers in early spring, followed in fall by scarlet fruit surrounded by pink husks.

Each		Each	
2 to 3 ft.	\$1.50	3 to 4 ft.	\$1.75

Flowering Shrubs—Continued

Exochorda - Pearl Bush

EXOCHORDA racemosa (Pearl Bush). 8 to 10 ft. One of the most pleasing spring flowering shrubs, producing a mass of white blossoms in April. Should be used extensively in mass plantings. Prune severely at planting time for best results.

3 to 4 ft.	Each \$1.50	5 to 6 ft.	Each \$2.50
4 to 5 ft.	2.00		

Forsythia - Golden Bell

FORSYTHIA, Lynwood Gold. 5 to 8 ft. New deep yellow Forsythia originated in Ireland. Heavy flowering, upright type. This deep yellow is a good companion with the pale yellow, Spring Glory. All bloom in April.

F. spectabilis (Showy Forsythia). 5 to 8 ft. Its showy flowers, which are borne in great profusion, are very popular.

F., Spring Glory. This recently introduced variety is all that the name indicates. Most prolific bloomer of the upright Forsythias. A cloud of pale yellow in springtime.

Prices of above 3 varieties:

2 to 3 ft.	Each \$1.25	4 to 5 ft.	Each \$2.00
3 to 4 ft.	1.50	5 to 6 ft.	2.50

Halesia - Silver Bell

HALESIA caroliniana (Carolina Silver Bell). 15 to 18 ft. A large shrub or small tree which blooms with the Dogwood. Its mass of snow-white, bell-shaped flowers are most attractive, followed by fruit which has four papery wings.

4 to 5 ft.	Each \$1.50	5 to 6 ft.	Each \$2.50
-----------------	----------------	-----------------	----------------

Hamamelis - Witchhazel

HAMAMELIS virginiana (Common Witchhazel). 8 to 10 ft. Ribbon-like yellow flowers in late autumn. Good for natural planting and shady places.

2 to 3 ft.	Each \$1.25	4 to 5 ft.	Each \$2.00
3 to 4 ft.	1.50		

H. vernalis (Vernal Witchhazel). 4 to 6 ft. A medium shrub with many branches which are usually covered with one-half inch yellow blossoms in January or February. Prefers a moist location. Good for naturalizing.

2 to 3 ft.	Each \$1.25	4 to 5 ft.	Each \$2.00
3 to 4 ft.	1.50	5 to 6 ft.	2.50

Hibiscus - The Altheas

HIBISCUS syriacus (Shrub Althea). 5 to 7 ft. Bloom from June to frost. Upright in growth and rarely spreads over 3 feet. It does astonishingly well in cities or congested areas where other plants fail.

H. totus albus. Single; white. **H., Lucy**. Double; rose-pink.
H., Ardens. Double; lavender. **H., Single Pink**. Clear pink.
H., Jeanne d'Arc. Double; white.

All Hibiscus:

2 to 3 ft.	Each \$1.25	4 to 5 ft.	Each \$1.75
3 to 4 ft.	1.50		

Hydrangea

HYDRANGEA arborescens grandiflora (Snowhill Hydrangea). 3 to 4 ft. A continuous bloomer with flowers resembling a Snowball. Much used in foundation plantings.

18 to 24 in.	Each \$1.25	3 to 4 ft.	Each \$1.75
2 to 3 ft.	1.50		

H. paniculata grandiflora (Panicule Hydrangea). 4 to 5 ft. The old standard variety with large blossoms in August which turn pinkish under favorable weather conditions.

18 to 24 in.	Each \$1.25	3 to 4 ft.	Each \$1.75
2 to 3 ft.	1.50		

H. quercifolia (Oak-Leaved Hydrangea). 4 to 5 ft. A distinct and handsome variety with short, stiff, spreading branches. Leaves deeply lobed, which somewhat resemble an Oak. White blossoms in June.

15 to 18 in.	Each \$1.25	2 to 3 ft.	Each \$2.00
18 to 24 in.	1.50	3 to 4 ft.	2.50

Ilex - Winterberry

ILEX verticillata (Common Winterberry). 4 to 5 ft. A deciduous Holly much admired for its brilliant scarlet berries which remain on the plant most of the winter. A spreading shrub which prefers a rather moist location and some shade. Staminate and pistillate plants should be set together for pollination.

18 to 24 in.	Each \$1.25	2 to 3 ft.	Each \$1.50
-------------------	----------------	-----------------	----------------

Kolkwitzia - Beauty Bush

KOLKWITZIA amabilis (Beauty Bush). 6 to 10 ft. One of the most desirable introductions from Asia. Strong canes develop into graceful, sweeping branches. The flowers are shell to deep pink, with yellow markings in May. Might be called a much refined Weigela.

2 to 3 ft.	Each \$1.50	4 to 5 ft.	Each \$2.00
3 to 4 ft.	1.75	5 to 6 ft.	2.50

Lespedeza

LESPEDeza thunbergi (Thunberg Lespedeza). An attractive, August-blooming, herbaceous shrub, with reddish purple, sweet scented, Pea-like flowers borne on arching branches, and lasting several weeks. Very graceful; makes a good "forward" plant for the shrub border. The tops may freeze in a severe winter, but come back each spring.

Heavy plants Each
\$1.50

Ligustrum - Privet

For Hedge Plants, see page 16.

LIGUSTRUM sinense (Chinese Privet). 6 to 10 ft. A small-leaved, almost evergreen Privet, much used for hedges, also very desirable for landscape work. For screening and mass planting is unexcelled. Sometimes freezes but comes back satisfactorily.

2 to 3 ft. shrubs	Each \$0.75		
L. regelianum (Regel Privet). 5 to 6 ft. A deciduous plant of horizontal branching habit. Quite hardy and dense. Ours are grown from cuttings and are very uniform.	Each		Each
18 to 24 in.	\$0.75	3 to 4 ft.	\$1.25
2 to 3 ft.	1.00		

Lindera - Spicebush

LINDERA benzoin (Common Spicebush). 6 to 8 ft. Does remarkably well in moist, shady locations. Light green leaves turning pale yellow in the autumn. Small yellow flowers are produced in early spring before the leaves appear, followed by red fruit in late summer. Leaves and twigs are aromatic when crushed.

2 to 3 ft.	Each \$1.25	3 to 4 ft.	Each \$1.50
-----------------	----------------	-----------------	----------------

Lonicera - Honeysuckle

LONICERA fragrantissima (Winter Honeysuckle). 8 to 10 ft. So called because of its very fragrant white blossoms in early spring. Almost evergreen. Excellent for screens or hedges. For Hedges, see page 16.

L. compacta nana (Clavey's Compact Dwarf Honeysuckle). 4 to 5 ft. A recent introduction. A hardy, dwarf Honeysuckle shrub, yellow flowers in May, red berries in fall.

2 to 3 ft.	Each \$1.50	3 to 4 ft.	Each \$2.00
-----------------	----------------	-----------------	----------------

L. maackii podocarpa (Late Honeysuckle). 8 to 10 ft. A large, handsome shrub with pinkish blossoms followed by quantities of bright red berries which attract birds. Much prized for screen and mass planting.

L. tatarica (Tartarian Honeysuckle). 6 to 8 ft. Blooms in April and is one of the few early pink-flowering shrubs. Has bright red berries that stay on all summer or until taken by birds.

L. Zabeli (Zabel's Honeysuckle). 6 to 8 ft. A fine, upright variety with clean, bright foliage and dark red blossoms, followed by a crop of bright red berries.

2 to 3 ft.	Each \$1.25	4 to 5 ft.	Each \$1.75
3 to 4 ft.	1.50		

Magnolia

MAGNOLIA virginiana (Sweet Bay Magnolia). A fine, large American shrub with glossy, Laurel-like, almost evergreen foliage. The richly fragrant white flowers come in June and are followed by attractive fruits.

2 to 3 ft.	Each \$4.50	5 to 6 ft.	Each \$8.00
3 to 4 ft.	5.50	6 to 7 ft.	10.00
4 to 5 ft.	6.50		

M. rustica rubra. Large flowers of dark reddish purple. Very fast grower and excellent variety. Blooms later than M. Soulangeana. Not available in 2 to 3 ft.

M. soulangeana (Saucer Magnolia). All of the Soulangeana type have large Tulip-shaped blossoms which expand early in the spring before the leaves. Very ornamental, and a garden treasure. The true Soulangeana is pink on the outside with white inside. The best known and most popular.

The above 2 kinds:	Each		Each
2 to 3 ft.	\$6.00	4 to 5 ft.	\$10.00
3 to 4 ft.	7.50	5 to 6 ft.	12.50

Orchid Magnolia. A Hillenmeyer introduction. Blossom is lavender on outside, creamy white inside. A loose flower that resembles an Orchid when fully open.

2 to 3 ft.	Each \$7.50	3 to 4 ft.	Each \$10.00
-----------------	----------------	-----------------	-----------------

MAHONIA aquifolium. See page 6.

Myrica

MYRICA pennsylvanica (Northern Bayberry). 5 ft. A medium shrub, almost evergreen in Kentucky, dropping leaves in January. Leaves aromatic. Produces waxy gray berries.

18 to 24 in.	Each \$2.50	2 to 3 ft.	Each \$3.50
-------------------	----------------	-----------------	----------------

Philadelphus

PHILADELPHUS grandiflora (Big Scentless Mock Orange). 6 to 8 ft. Its white blossoms in June are larger than most, and very attractive. Succeeds under all soil conditions.

2 to 3 ft.	Each \$1.25	3 to 4 ft.	Each \$1.50
-----------------	----------------	-----------------	----------------

P. lemoinei (Lemoine's Mock Orange). 4 to 5 ft. Of good, compact, upright habit, leaves smaller than most and blossoms sweetly scented in May.

2 to 3 ft.	Each \$1.25	3 to 4 ft.	Each \$1.50
-----------------	----------------	-----------------	----------------

P., Virginal (Virginal Mock Orange). 6 to 7 ft. One of the finest and most popular. The pure white, semi-double blossoms often measure 2 inches across. Blossoms heavily in spring and intermittently throughout the growing season. Erect but not too vigorous.

2 to 3 ft.	Each \$1.25	4 to 5 ft.	Each \$1.75
3 to 4 ft.	1.50		

P., Minnesota Snowflake. (Patent No. 538.) 6 to 7 ft. Patented Mock Orange with full double, pure white, fragrant blossoms in May. Plants retain their dark green leaves close to the ground, and are therefore excellent for screen, hedge or specimen.

2 to 3 ft.	Each \$1.50	4 to 5 ft.	Each \$2.50
3 to 4 ft.	2.00		

Photinia

PHOTINIA villosa (Oriental Photinia). 10 to 12 ft. It has deep green, glossy foliage and is of dense, branching habit. The foliage colors brilliantly in the fall, and the small flowers, produced in June, are followed by attractive red berries that hang on until taken by birds.

3 to 4 ft.	Each \$1.50	5 to 6 ft.	Each \$2.50
4 to 5 ft.	2.00		

Flowering Shrubs—Continued

Prunus - Flowering Almond

PRUNUS glandulosa (*Almond Cherry*). 3 to 4 ft. Rose-pink. The plants are thickly studded in April with medium sized double pink flowers from base to tip of branch. Each \$1.50
18 to 24 in. \$1.50 2 to 3 ft. \$1.75

Rhodotypos

RHODOTYPOS scandens (*Black Jetbead*). 4 to 5 ft. Ornamental shrub with bright green, serrated leaves and large white flowers one-half to one inch across in May and June. These are followed by shining black fruits. Each \$1.50
2 to 3 ft. \$1.50 4 to 5 ft. \$2.00
3 to 4 ft. 1.75

Rhus - Sumac

RHUS aromatica (canadensis) (*Fragrant Sumac*). 4 to 5 ft. Yellow flowers in June in clusters followed in summer with coral-red fruits. Pleasant, aromatic foliage. Fine as an undershrub or in dry, rocky places. Each \$1.25
2 to 3 ft. \$1.25 4 to 5 ft. \$1.75
3 to 4 ft. 1.50
R. copallina (*Flameleaf Sumac*). 7 to 10 ft. The native variety that colors so wonderfully in the fall. It is not so robust a grower as some of the others. Each \$1.25
4 to 5 ft. \$1.25 5 to 6 ft. \$1.50

Rosa - Shrub Roses

ROSA rugosa, Belle Poitevine. 4 to 6 ft. A hardy Shrub Rose that bears single pink flowers in June and July. Attractive red fruits following bloom. Each \$1.75
2 to 3 ft. \$1.75 3 to 4 ft. \$2.00
R. Hugonis (*Golden Rose of China*). 5 to 7 ft. Blooms in May. Single, cup-shaped flowers covering arching branches to tips. Unsurpassed for mass effects and in shrub borders. Each \$2.50
3 to 4 ft. \$2.50 5 to 6 ft. \$3.50
4 to 5 ft. 3.00

Salix

SALIX caprea (*Goat Willow or Pussy Willow*). 12 to 15 ft. Large shrub that grows in either dry or wet soil, and valued because of its silky catkins that appear before the foliage in the spring. Winter-cut twigs may be forced indoors. Each \$1.25
2 to 3 ft. \$1.25

Spiraea - Spirea

SPIREA arguta (*Garland Spirea*). 4 to 5 ft. Very free flowering in April. Small, soft green foliage. Very much like *S. thunbergii*, but grows slightly larger. Each \$1.50
2 to 3 ft. \$1.50 3 to 4 ft. \$1.75
S. bumalda (*Bumalda Spirea*). 2 to 3 ft. A beautiful free flowering shrub with upright branches. There may be an occasional variegation of yellow foliage. The flowers are deep pink, produced in large, flat-topped clusters throughout most of the summer. Each \$1.50
2 to 2½ ft. \$1.50 2½ to 3 ft. \$1.75
S. bumalda, Anthony Waterer. 18 to 24 in. A compact, low-growing shrub. The bright pink flowers are borne in full, flat clusters on erect stems in June and July. If these are cut away when they fade, the shrub will bloom during the summer. Each \$1.25
15 to 18 in. \$1.25 18 to 24 in. \$1.50
S. cantoniensis (*Reeves' Double Spirea*). 4 to 5 ft. The double white flowers are borne in clusters along the branches in May and the shrub resembles *Spiraea Van Houttei*, except the flowers are double and the leaves are longer and narrower. Each \$1.50
18 to 24 in. \$1.50 3 to 4 ft. \$2.00
2 to 3 ft. 1.75 4 to 5 ft. 2.50
S. prunifolia (*Bridal Wreath Spirea*). 5 to 6 ft. An old-fashioned variety with white, double flowers borne close to the slender, erect branches in March and April before the foliage appears. Each \$1.50
2 to 3 ft. \$1.50 4 to 5 ft. \$2.00
3 to 4 ft. 1.75
S. Van Houttei (*Van Houtte Spirea*). 4 to 5 ft. This shrub should need no description as it is planted and known all over America. The rather slender, arching branches are literally covered with clusters of small white flowers in early spring. Each \$1.25
2 to 3 ft. \$1.25 4 to 5 ft. \$1.75
3 to 4 ft. 1.50

Symphoricarpos (Coralberry, Snowberry)

SYMPHORICARPOS chenaulti (*Chenault Coralberry*). 4 to 6 ft. An improved form of Coralberry, of more upright growth, smaller leaves and coral fruit.
S. alba (*Common Snowberry*). 4 to 5 ft. Small pinkish flowers in July, followed by white berries in winter.
S. orbiculata (*Indian Currant; Coralberry*). 4 to 5 ft. A native shrub that in many localities grows in great masses. Bell-shaped white flowers in June, followed by coral berries.
Prices on above 3 varieties: Each \$1.00
18 to 24 in. \$1.00
2 to 3 ft. 1.25

Syringa - Lilac

SYRINGA persica (*Persian Lilac*). 6 to 8 ft. Rich lilac color; blooms later than old-fashioned kinds.
S. vulgaris (*Common Purple Lilac*). 6 to 8 ft. The old familiar Purple Lilac of grandmother's garden, which has lost none of its charm. Entirely hardy; blooms in April.
Above 2 varieties: Each \$1.50
2 to 3 ft. \$1.50 3 to 4 ft. \$1.75
S. villosa (*Late Lilac*). 6 to 8 ft. Latest to bloom. Pale pinkish lilac flowers; very fragrant. Each \$1.50
2 to 3 ft. \$1.50 4 to 5 ft. \$2.00
3 to 4 ft. 1.75

Syringa - French Lilac

The so-called French Lilacs have been derived by crossing the best of the species, especially *Syringa vulgaris*. There are many wonderful varieties and after much testing we have selected the following as the best for our section. Blooms late April or early May.

Adelaide Dunbar. Semi-double. Maroon to violet-red.
Alphonse Lavallee. Double light purple.
Belle de Nancy. Double. Light violet-red.
Chas. Joly. Double. Dark purplish red.
Charles Tenth. Single, reddish violet.
Congo. Single, reddish purple.
Edouard Andre. Double, pink.
Ellen Willmott. Double, creamy white.
Ludwig Spaeth. Single, large, deep rich purple-red.
Michel Buchner. Double, pinkish lilac.
All French Lilacs: Each \$1.50
18 to 24 in. \$1.50
2 to 3 ft. 2.00
3 to 4 ft. 2.50
*Not available in 18 to 24 in.

Mme. Casimer Perier. Double, pure white.
***Mme. F. Morel**. Single, reddish purple.
***Pres. Grevy**. Double, bluish lilac. Not available in 18 to 24 in. or 2 to 3 ft.
Pres. Lincoln. Single. Wedgwood-blue.
***Vauban**. Semi-double, lilac-pink. Available in 4 to 5 ft. for \$3.00 each. Not available in 18 to 24 in. or 2 to 3 ft.
William Robinson. Double, deep pink. Each \$1.50

Tamarix

Graceful shrubs with few branches, feathery foliage and showy flowers. Will grow in very dry soil.

TAMARIX pentandra (*Five-Stamen Tamarix*). 6 to 8 ft. Beautiful blue-gray foliage, pink flowers in panicles during June and scattered throughout the summer.

T. africana (*African Tamarix*). 7 to 10 ft. The lavender flowers are borne along the branches in spring before the leaves. Strong grower and excellent for a background.
Prices on both varieties: Each \$1.25
2 to 3 ft. \$1.25 3 to 4 ft. \$1.50
4 to 5 ft. 1.75
T. Pink Cascade. (Pat. No. 1275). A recent introduction from England. Masses of flesh-pink cascading panicles in late summer. Rich blue-green foliage. Each \$2.50
2 to 3 ft. \$1.75 4 to 5 ft. \$2.50
3 to 4 ft. 2.00 5 to 6 ft. 3.00

Viburnum

VIBURNUM carlesi (*Korean Spice Viburnum*). 4 to 5 ft. A notable distinct shrub with rounded, leathery foliage and waxy pink flowers. Their delightfully fragrant blossoms unfold with the leaves in spring. It is real aristocrat and should be in every garden where quality is appreciated.

18 to 24 in. Each \$2.00 3 to 4 ft. Each \$4.00
2 to 3 ft. 3.00 (BGB 50c extra)

V. burkwoodi. See page 6.

V. Juddi (*Judd Viburnum*). About the same as *Viburnum Carlesi*, but leaves slightly larger and darker green.

18 to 24 in. Each \$2.50 2 to 3 ft. Each \$3.50
(BGB 50c extra)

V. lantana (*Wayfaring Tree*). 8 to 10 ft. A vigorous shrub with soft, heavy leaves and large clusters of white flowers in May. Red berries turn black as they ripen.

V. opulus (*European Cranberry Bush*). 8 to 10 ft. White flowers in May, bright berries attract birds in midsummer; brilliant color effect in fall.

***V. opulus roseum** (*Common Snowball*). 8 to 10 ft. Old-fashioned variety, known to all. In May balls of pure white flowers cover the bush.

V. prunifolium (*Black Haw Viburnum*). 10 to 12 ft. A large, bushy shrub or small tree with horizontal, twiggy branches and dark green leaves which color brilliantly in the fall. White flowers borne in flat clusters in April followed by smooth, glaucous bluish black fruit. A valuable variety.

V. tomentosum (*Double File Viburnum*). White flowers followed by red berries.

V. trilobum (*American Cranberry Bush*). 10 to 12 ft. A desirable variety grown primarily for its large red, conspicuous fruit, persistent throughout the fall.

All Viburnums except as noted:

2 to 3 ft. Each \$1.50 3 to 4 ft. Each \$1.75
*Not available in 5 to 6 ft. 4 to 5 ft. 2.50

VIBURNUM setigerum. One of the most attractive Viburnums. White flowers in April followed by clusters of bright red berries in the fall, that hold well into winter.

3 to 4 ft. Each \$2.00 5 to 6 ft. Each \$3.00
4 to 5 ft. 2.50

Vitex

VITEX latifolia (*Chaste Tree*). A beautiful late blooming shrub with lilac-blue spikes similar to Butterfly Bush. Graceful, showy, and should be planted more.

18 to 24 in. Each \$1.25 2 to 3 ft. Each \$1.50

Weigela

Hardy, free flowering shrubs, 4 to 6 feet, of spreading habit with bell- or trumpet-shaped flowers in May. Thrive in moist soil, and will grow in partial shade.

Weigela candida. White.

W. Vaniceki. Red; good bloomer.

W. Styriaca. Deep pink.

W., Bristol Ruby. (Plant Patent No. 492.) 6 to 7 ft. This outstanding Weigela is hardier and more vigorous than any red Weigela to date. Makes a shapely, thrifty plant. Blossoms a soft ruby-red shading to garnet-crimson.

18 to 24 in. Each \$1.50 2 to 3 ft. Each \$1.75

Deciduous Trees • For Shade and Beauty

“No place is complete without trees. A home without trees is charmless; a road without trees is shadeless; a park without trees is purposeless; a country without trees is hopeless.”

HEIGHT OF SHADE TREES

The approximate height of shade trees to their diameter is as follows:

1 1/4 in.	7 to 9 ft.	2 in.	12 to 14 ft.
1 1/2 in.	8 to 10 ft.	2 1/2 in.	12 to 15 ft.
1 3/4 in.	10 to 12 ft.		

However, the Diameter is the Determining Factor.

Acer - Maple

ACER platanoides (*Norway Maple*). A vigorous, dense, round-headed tree, valuable for street or lawn planting. The leaves turn a pale yellow in the fall. It resembles the Sugar Maple except the leaves are larger and it is not as tall growing.

A. platanoides columnare (*Column Norway Maple*). A valuable type of Norway Maple with upright habit of growth. For street planting, accent plant or background it is quite popular. Has regular Norway foliage. **Not available in 1 1/4 in. size.**

Crimson King Maple

(Plant Patent No. 735.)

A new, highly colored Maple. Foliage opening crimson in spring, changing and holding a purple color throughout rest of summer. A round-headed tree similar to Norway Maple in habit of growth.

	Each
7 to 8 ft., 1 in. diameter	\$12.50
8 to 9 ft., 1 1/4 in. diameter	16.00
9 to 10 ft., 1 1/2 in. diameter	20.00
10 to 11 ft., 1 3/4 in. diameter	22.50
11 to 12 ft., 2 in. diameter	25.00
12 to 13 ft., 2 1/2 in. diameter	28.00

A. rubrum (*Red Maple*). A native tree which is not appreciated. Flowers and seed pods are red, appearing before the leaves, which in fall vie with the Oaks, Gum, or Sugar Maples for magnificence in color.

A. saccharum (*Sugar Maple*). Known everywhere and extremely popular. The tree grows to great size, erect, conical form, is perfectly hardy, withstands any sub-normal weather conditions, and is adaptable to nearly all types of soil. Available in 2 1/2 in. size only.

Prices of 4 above Maples:	Each
7 to 9 ft., 1 1/4 in. diameter	\$ 5.00
8 to 10 ft., 1 1/2 in. diameter	7.00
10 to 12 ft., 1 3/4 in. diameter	10.00
12 to 14 ft., 2 in. diameter	14.00
12 to 15 ft., 2 1/2 in. diameter	18.00

A. saccharinum (*Silver Maple*). Because of its quick growth and good foliage, this tree is in great demand. The leaves appear early in spring, are light green on the upper side, silvery beneath. Small flowers open before the leaves appear. For planting as temporary trees—that is, alternate between the hard-wood and slower growers. Highly recommended.

	Each
7 to 9 ft., 1 1/4 in. diameter	\$ 4.00
8 to 10 ft., 1 1/2 in. diameter	6.00
10 to 12 ft., 1 3/4 in. diameter	9.00
12 to 14 ft., 2 in. diameter	13.00
12 to 15 ft., 2 1/2 in. diameter	16.00

Betula - Birch

B. pendula alba (*European White Birch*). Tree of moderately quick growth, erect, with terminal branches slightly drooping. Bark almost white. Prefers a moist place, but will do well in dry ground.

	Each
8 to 9 ft., 1 1/2 in. diameter	\$ 7.00
9 to 10 ft., 1 3/4 in. diameter	10.00
10 to 11 ft., 2 in. diameter	14.00
11 to 12 ft., 2 1/2 in. diameter	18.00

(B&B 50% extra)

B. pendula laciniata (*Cut-leaf European White Birch*). A weeping form of the European White Birch. Inclined to be rather pyramidal when young but as it matures develops a broad top. Its small, pendulous branches eventually almost touch the ground.

	Each
7 to 8 ft., 1 1/4 in. diameter	\$ 5.00
8 to 9 ft., 1 1/2 in. diameter	7.00
9 to 10 ft., 1 3/4 in. diameter	10.00

Birch Clumps

We have a limited quantity of European Birch Clumps with two or more stems. These must be moved with a ball of earth. They give a natural effect and are excellent for specimens.

	Each
10 to 12 ft., B&B (at nursery)	\$25.00

Crataegus - Hawthorn

CRATAEGUS phaenopyrum cordata (*Washington Hawthorn*). 15 to 20 feet. One of our most attractive small trees or large shrubs. The white blossoms are followed by bright red berries which persist well into the winter.

	Each		Each
4 to 5 ft., B&B	\$4.00	7 to 8 ft., B&B	\$ 7.50
5 to 6 ft., B&B	5.00	8 to 10 ft., B&B	
6 to 7 ft., B&B	6.00	(at nursery)	12.50
		10 to 12 ft., B&B	16.00

Cornus - Dogwood

“A Dogwood tree will be monument enough for me.”—Irvin S. Cobb.

CORNUS florida (*White-Flowering Dogwood*). A native tree, well known to everyone. Its large, white, single blossoms are conspicuous, coming early in the spring. The foliage in fall colors beautifully with red berries. It can be used as a specimen, or in groups as a background for shrub borders. In contrast with bright, flowering trees like Redbud, it is especially showy.

	Each		Each
2 to 3 ft., B&B	\$2.50	5 to 6 ft., B&B	\$ 6.00
3 to 4 ft., B&B	3.50	6 to 7 ft., B&B	7.50
4 to 5 ft., B&B	4.50	7 to 8 ft., B&B	10.00

Ask for Special Price in Quantity and for Naturalization.

C. florida rubra (*Red-Flowering Dogwood*). The common white variety may be better known but this pink-flowering type affords the loveliest display. Once started, they need but simple care. Like the white-flowering kind, the leaves of this Dogwood color attractively in the fall.

	Each		Each
2 to 3 ft., B&B	\$4.00	5 to 6 ft., B&B	\$10.00
3 to 4 ft., B&B	5.50	6 to 7 ft., B&B	12.50
4 to 5 ft., B&B	7.50	7 to 8 ft., B&B (Sold out)	15.00

Super Red Dogwood. A new outstanding light red Dogwood. Color holds well during entire blooming season. New growth in spring is red.

	Each		Each
2 to 3 ft., B&B	\$5.00	3 to 4 ft., B&B	\$6.50

CARPINUS - Hornbeam

CARPINUS pyramidalis (*Pyramidal European Hornbeam*). A much prized, narrow, compact, stately tree of columnar habit and Beech-like foliage. Stands clipping remarkably well and for this reason can be used for a tall hedge, pillars, or on either side of an entrance.

	Each		Each
6 to 7 ft., B&B	\$10.00	8 to 10 ft., B&B	\$20.00
7 to 8 ft., B&B	14.00		

C. caroliniana (*American Hornbeam*). Sometimes called Blue Beech or Ironwood. Bushy tree with dense round head. Leaves are bluish green above, yellow-green below.

	Each
12 to 14 ft., 2 in. diameter	\$14.00
12 to 15 ft., 2 1/2 in. diameter	18.00

(B&B 50% extra)

Castanea - Chestnut

CASTANEA mollissima (*Chinese Blight-Resistant Chestnut*). Small tree, valuable for shade and nuts. Fruits early and prolifically and is of good quality.

	Each
5 to 6 ft.	\$4.00
6 to 7 ft.	5.00

Celtis - Hackberry

CELTIS occidentalis (*Common Hackberry*). The Hackberry is one of the best trees. It is not rapid in growth, but is comparatively free of disease. Grows in either dry or wet soil.

	Each
7 to 9 ft., 1 1/4 in. diameter	\$ 5.00
8 to 10 ft., 1 1/2 in. diameter	7.00

Cercis - Redbud

CERCIS canadensis (*Eastern Redbud*). Harbinger of spring, blooming in April, and literally covered with red or pink blossoms before the leaves appear.

	Each		Each
4 to 5 ft.	\$2.00	7 to 8 ft.	\$5.00
5 to 6 ft.	3.00	8 to 9 ft.	6.00
6 to 7 ft.	4.00	10 to 12 ft.	8.00

CARE OF NEWLY PLANTED SHADE TREES

Borers and sun scald are sometimes harmful to shade and flowering trees during the first season's growth. It would be beneficial after planting to paint the trunks with a solution consisting of 1/4 lb. DDT mixed in one quart of water. It is important, however, if you paint with DDT or not, that the trunks be wrapped with a double thickness of burlap or heavy paper from the ground line to the first branches.

DECIDUOUS TREES—Continued

White Redbud

Very Unusual

C. canadensis alba (*White Eastern Redbud*). An unusual white form of our ordinary Redbud which is both distinctive and beautiful. The individual blossoms are about the same size and they open in April. Makes a distinctive gift to lovers of unusual trees. Grafted.

Each	Each
4 to 5 ft.\$4.00	7 to 8 ft.\$10.00
5 to 6 ft.6.00	8 to 10 ft.12.50
6 to 7 ft.8.00	(B&B 50% extra)

Diospyros - Persimmon

DIOSPYROS virginiana (*Persimmon*). 25 to 35 feet. Valuable both for shade and fruit. Its fruit is valuable after frost time and is an old favorite. Difficult to transplant.

Each	Each
6 to 7 ft., 1 1/4 in. diam.\$5.00	9 to 10 ft., 1 3/4 in. diam.\$10.00
7 to 9 ft., 1 1/2 in. diam.7.00	

Fraxinus - Ash

GREEN and AMERICAN ASH. We offer these two varieties which are not unlike in appearance and which are all native. The whole group succeeds in dry, alkaline soils.

Each	Each
7 to 9 ft., 1 1/4 in. diam.\$4.50	12 to 14 ft., 2 in. diam.\$13.50
8 to 10 ft., 1 1/2 in. diam.6.50	12 to 15 ft., 2 1/2 in. diam.17.00
10 to 12 ft., 1 3/4 in. diam.9.50	

Ginkgo - Maidenhair

GINKGO biloba (*Maidenhair*). A tall, picturesque, hardy tree with horizontal branches and small maidenhair-fern-like leaves which usually hang in clusters of three or more from the branches.

Each	Each
6 to 8 ft., 1 1/4 in. diam.\$5.00	8 to 9 ft., 1 1/2 in. diam.\$7.00

Gleditsia - Honey Locust

GLEDITSIA triacanthos inermis (*Thornless Honey Locust*). A picturesque, fast growing, spreading tree with small compound leaves. Not dense enough to kill the grass beneath and is being much used as a lawn or street tree and as a substitute for the Elm.

Each	Each
1 1/4 in. diameter\$ 5.00	2 in. diameter\$14.00
1 1/2 in. diameter7.00	2 1/2 in. diameter18.00
1 3/4 in. diameter10.00	

® Moraine Locust (Plant Patent No. 836)

It should not be confused with our native Locusts. It is a vase-shaped tree when young, but resembles the stately American Elm when older. The tree does not produce unsightly seed pods. It is a fast grower, happy on a wide range of soils, and easy to transplant. We are one of the few licensed growers in the United States.

Each	Each
6 to 8 ft., 3/4 in. diam.\$10.00	11 to 12 ft., 1 3/4 in. diam.\$22.50
8 to 9 ft., 1 in. diam.12.50	12 to 14 ft., 2 in. diam.25.00
9 to 10 ft., 1 1/4 in. diam.16.00	12 to 15 ft., 2 1/2 in. diam.30.00
10 to 11 ft., 1 1/2 in. diam.20.00	

Ask for Special Prices in Quantity

Gymnocladus

GYMNOCLADUS dioica (*Kentucky Coffee Tree*). A native of noble proportions, growing rather irregular in shape, with blue-green foliage. Resembles the Walnut tree.

Each	Each
7 to 9 ft., 1 1/4 in. diam.\$5.00	8 to 10 ft., 1 1/2 in. diam.\$7.00

Juglans - Butternut

JUGLANS cinerea (*Butternut*). This native tree is perhaps the most precocious of the nut bearing trees. It is rapid in growth, quickly making a round-headed tree. Fruits at young age.

Each	Each
5 to 6 ft., 1 in. diam.\$3.00	6 to 7 ft., 1 1/2 in. diam.\$4.00

Juglans - Walnut

JUGLANS nigra (*Black Walnut*). One of the noblest of our native trees; valued for timber and nuts.

Each	Each
4 to 5 ft., 3/4 in. diam.\$2.00	6 to 7 ft., 1 1/2 in. diam.\$4.00
5 to 6 ft., 1 in. diam.3.00	

Koelreuteria - Golden Rain Tree

KOELREUTERIA paniculata (*Panicled Golden Rain Tree*). Frequently called "Golden Rain Tree" because of the many yellow blossoms. It grows 20 to 30 feet high, and is of globular shape. In its young stages it is not so shapely but develops into an interesting specimen.

Each	Each
5 to 6 ft.\$6.00	6 to 7 ft.\$7.00
	(B&B 50% extra)

Liriodendron - Tulip Tree

LIRIODENDRON tulipifera (*Tulip Tree*). Belongs to the Magnolia family, and is one of the finest native trees, growing to be very large, and bearing Tulip-shaped, yellowish blossoms. Grows quickly when established.

Each	Each
7 to 9 ft., 1 1/4 in. diam.\$ 5.00	12 to 14 ft., 2 in. diam.\$14.00
8 to 10 ft., 1 1/2 in. diam.7.00	12 to 15 ft., 2 1/2 in. diam.18.00
10 to 12 ft., 1 3/4 in. diam.10.00	(B&B 50% extra)

Liquidambar - Sweet Gum

LIQUIDAMBAR styraciflua. Another native tree. It is not of rapid growth nor especially easy to transplant. The brilliant color in the fall, and the unusual appearance of the young branches with corky bark in the winter are qualities which make it especially valuable.

Each	Each
7 to 9 ft., 1 1/4 in. diam.\$ 5.00	12 to 14 ft., 2 in. diam.\$14.00
8 to 10 ft., 1 1/2 in. diam.7.00	12 to 15 ft., 2 1/2 in. diam.18.00
10 to 12 ft., 1 3/4 in. diam.10.00	
	(B&B 50% extra)

Malus - Flowering Crab

The Flowering Crabs have few rivals among the gorgeous spring-flowering trees. They are hardy, of easy culture, and will thrive in almost any soil. They are available in many shades and when used as specimens or mass plantings are most effective. Many kinds bear very ornamental fruit.

MALUS ALMEY (*Almey's Crab*). 12 to 15 ft. This is an outstanding variety. Carmine buds, opening to crimson and holding the color well. White marking at base of each petal. Tree blooms at a young age, and individual flowers are very large. Fruit is maroon when ripe.

M. arnoldiana (*Arnold's Crab*). 10 to 15 ft. Large, soft pink flowers, opening to almost pure white. Conspicuous yellow and red fruit.

M. atrosanguinea (*Carmine Crab*). 12 to 15 ft. A broad growing type with blossoms from carmine to rose-pink. Good foliage and prolific bloomer.

M. eleyi (*Ely Crab*). 12 to 15 ft. One of the purple or red-leaf Crabs. Covered in spring with clusters of large pink flowers, followed by showy purple-red fruit.

M. Cheals Crimson. Single pink buds with white flowers, about an inch in diameter. Excellent foliage.

M. dolgo. White bloom, large edible fruit about the size of a Plum.

M. Ellwangeriana. 12 to 15 ft. Rather upright with white flowers. Its brilliant red fruit with yellow blush in the fall is extremely showy.

M. Hopa (*Red Flowering Crab Apple*). 18 to 20 ft. Strong, healthy, upright tree, rose-pink flowers. Fruit red inside and out.

M. floribunda. Graceful, arching branches with single light pink bloom.

***M. ioensis plena** (*Bechtel's Crab*). 12 to 15 ft. Rather slow grower with upright, spreading branches. Its double pink flowers resemble clusters of small Roses. Available in 3 to 4 ft. only.

M. purpurea lemoinei. A bronze-leaf type with semi-double, carmine flowers, bears purplish red fruit in fall. Excellent for specimen or background.

M. spectabilis (*Chinese Crab*). 12 to 15 ft. Upright form with semi-double, pale pink blossoms. Yellow fruit. Desirable.

M. zumi calocarpa. 12 to 15 ft. The finest of all the white Crabs. The buds are pink but expand into lovely large white blossoms which literally cover the tree. Fruit small, bright red to orange.

Prices of above Crabs—bare roots:

Each	Each
3 to 4 ft.\$2.00	5 to 6 ft.\$3.00
4 to 5 ft.2.50	

(*Not available in 5 to 6 ft. size.)

WE HAVE BEAUTIFUL SPECIMENS OF SOME CRABS QUOTED AT NURSERY AS FOLLOWS:

Each	Each
5 to 6 ft., B&B\$5.00	7 to 8 ft., B&B\$10.00
6 to 7 ft., B&B7.50	

Magnolia

MAGNOLIA. See pages 6 and 8.

Morus - Mulberry

MORUS alba tatarica (*Russian Mulberry*). This makes a round-headed tree, quick growth and with profuse foliage. It is wonderfully productive, and for anyone wishing to attract birds and for chicken runs it cannot be surpassed. Fruit smaller than our native variety.

Each	Each
5 to 6 ft.\$3.00	7 to 8 ft.\$5.00
6 to 7 ft.4.00	

Populus - Poplar

POPULUS nigra italica (*Lombardy Poplar*). A tall, slender tree of rapid growth. Because of its great height and quick growth it is recommended for back-grounds, to add character to plantings or to offset straight or bare lines; for screening views, windbreaks—and for quick effects.

Each	Each
7 to 8 ft.\$2.50	10 to 12 ft.\$4.00
8 to 10 ft.3.00	

Platanus - Sycamore

PLATANUS acerifolia (*London Plane Tree*). Quick growing tree that withstands city conditions.

P. occidentalis (*American Plane Tree*). Our native Sycamore. Rugged in character, picturesque in winter with its white bark. Fine for woodland and paddock. Tolerant of soot and smoke.

Each	Each
7 to 9 ft., 1 1/4 in. diam.\$4.50	12 to 14 ft., 2 in. diam.\$13.50
8 to 10 ft., 1 1/2 in. diam.6.50	12 to 15 ft., 2 1/2 in. diam.17.00
10 to 12 ft., 1 3/4 in. diam.9.50	

LARGE TREES

In addition to the stock listed we have many large, fine specimens which will give immediate effect, at moderate cost. Why wait a lifetime for results? Write or consult us.

DECIDUOUS TREES—Continued

Prunus - Flowering Cherries

These beautiful flowering trees from the Orient are among the most decorative in cultivation. They are of medium growth, free of disease and will succeed almost anywhere. There are many species and horticultural forms. We have tested many kinds, the best are listed below.

All except the large specimens listed below will be available in the **SPRING ONLY**. We will accept orders and ship at proper season.

Weeping Forms

PRUNUS subhirtella, Single Weeping. Pink.

P. subhirtella, Double Weeping. Pink.

These beautiful, graceful trees are a mass of bloom in early spring.

Prices above 2 varieties:		Each
1-year heads		\$ 6.00
2-year heads, single only		9.00
3-year heads, single only		12.50

Upright Forms

PRUNUS autumnalis, Single pink. Blossoms spring and fall.

P., Kwanzan, Double deep pink.

P., Naden, Double light pink.

P., Mt. Fuji, Double white.

P. yedoensis (Yoshino), Single pale pink. Extra heavy and one which is largely planted around the tidal basin in Washington.

Prices of above 5 varieties:		Each
4 to 5 ft.	\$4.00	5 to 6 ft. \$5.00

Some varieties of the Upright Types available in transplanted specimens at the nursery.

		Each
6 to 7 ft., B&B	\$10.00	8 to 10 ft., B&B \$20.00
7 to 8 ft., B&B	15.00	

Prunus Persica (Flowering Peach)

PRUNUS persica alba (Double White Flowering Peach), A small tree, covered in April with double white blossoms.

P. persica rubra (Double Red Flowering Peach), Same as above, but has double red blossoms in April.

P. persica rosea (Double Pink Flowering Peach), Same as above, but has double pink blossoms in April.

Prices of 3 above:		Each
3 to 4 ft.	\$1.75	5 to 6 ft. \$3.00
4 to 5 ft.	2.25	

LARGER SPECIMENS AT OUR NURSERY

		Each
8 to 9 ft., B&B		\$10.00

Prunus - Flowering Plum

PRUNUS blireiana (Blireiana Plum), A small, neat tree with rather upright branches on which are borne salmon-pink rosettes in great profusion in April.

P. divaricata (Thundercloud Purple Plum), A beautiful shapely tree with dark purple foliage about the color of the Purple Beech. Fine for contrast.

Prices of 2 above:		Each
4 to 5 ft.	\$3.00	5 to 6 ft. \$4.00

Quercus - Oak

QUERCUS alba (White Oak), One of the greatest of all the Oaks. Rather difficult to transplant and of slow growth, but "patience brings a perfect reward."

Q. borealis (Rubra) (Northern Red Oak), Not as compact nor does it color as brilliantly as the Pin Oak. Somewhat more difficult to transplant but grows in almost any soil when established.

Q. palustris (Pin Oak), The most popular of all the Oaks. Its beautiful glossy, deeply lobed green leaves change to gorgeous shades of purplish red and scarlet in the autumn. It is symmetrical, easy to transplant and of rapid growth. For street, avenue or as a lawn specimen there is nothing superior. Where a desirable hardwood tree is wanted we unhesitatingly recommend a Pin Oak.

Prices of above varieties of Oaks:		Each
7 to 9 ft., 1 1/4 in. diameter		\$ 5.00
8 to 10 ft., 1 1/2 in. diameter		7.00
10 to 12 ft., 1 3/4 in. diameter		10.00
12 to 14 ft., 2 in. diameter		14.00
12 to 15 ft., 2 1/2 in. diameter		18.00

Salix - Willow

SALIX blanda (Wisconsin Weeping Willow), Of rather upright growth when young but as it attains height and age its long, drooping silvery branches make it the most effective of all the Willows. Rapid grower in either moist or other good soil. Fine for specimens or screens. Best of the Weeping Willows.

S. elegantissima (Thurloew Weeping Willow), More upright than *Salix blanda*. Vigorous grower.

S. niobe (Golden Weeping Willow), Best of the Golden Willows. Slender leaves, green above, silvery below. Twigs and bark golden.

S. pentrandra (Laurel or Bay Willow), Glossy green leaves. Upright type.

Prices of above 4 varieties		Each
6 to 7 ft.	\$3.00	8 to 9 ft. \$5.00
7 to 8 ft.	4.00	

S. caprea (Pussy Willow), See page 9.

Sophora Japonica (Pagoda Tree)

A medium size tree with spreading branches forming a symmetrical, compact head. Native of China and Japan. Flowers creamy white borne in large, loose panicles expanding in midseason. A handsome tree with green-barked twigs.

		Each
6 to 7 ft., 1 1/2 in. diameter		\$ 7.00
7 to 8 ft., 1 3/4 in. diameter		10.00
8 to 10 ft., 2 in. diameter		14.00

(B&B 50% extra)

Taxodium - Bald Cypress

TAXODIUM distichum, Will grow in dry or wet soil and blends well in either deciduous or evergreen plantings. The foliage is needle-like, the general shape of the tree resembles a Spruce. Slow growing, but very symmetrical and as durable as an Oak.

		Each
5 to 6 ft., 1 in. diameter		\$4.00
6 to 7 ft., 1 1/4 in. diameter		5.00
7 to 8 ft., 1 1/2 in. diameter		7.00
8 to 9 ft., 2 in. diameter		9.00

(B&B 50% extra)

Tilia - Linden

TILIA americana (American Linden), Sometimes known as Basswood. This native tree is very attractive and will grow rapidly when planted in low ground. The leaves are distinctly larger than other varieties.

		Each
7 to 9 ft., 1 1/4 in. diameter		\$ 4.50
8 to 10 ft., 1 1/2 in. diameter		6.50
10 to 12 ft., 1 3/4 in. diameter		9.50
12 to 14 ft., 2 in. diameter		13.50
12 to 15 ft., 2 1/2 in. diameter		17.00

T. europaea (European Linden), Similar to the American Linden except the leaves are smaller and the tree is more compact, developing to a shapely specimen.

		Each
9 to 10 ft., 1 3/4 in. cal.		\$10.00
10 to 11 ft., 2 in. cal.		14.00
11 to 12 ft., 2 1/2 in. cal.		18.00

T. platyphyllos pyramidalis (Pyramidal Big-leaf Linden), A compact, upright form which can be used effectively in a very narrow space. Also desirable as a screen or sentinel tree.

		Each
7 to 8 ft.	\$10.00	8 to 10 ft. \$12.00

(B&B 50% extra.)

Ulmus - Elm

ULMUS pumila (Chinese Elm), A rapid growing tree that does especially well in difficult situations, like city soot and gases, dry and poor ground. Leaves smaller than our native Elm, habit more pendent. Only drawback possible is sleet damage and Elm beetle injury. Plant for twenty to thirty years' duration.

		Each
7 to 9 ft., 1 1/4 in. diameter		\$ 4.00
8 to 10 ft., 1 1/2 in. diameter		6.00
10 to 12 ft., 1 3/4 in. diameter		9.00
12 to 14 ft., 2 in. diameter		13.00

U., Buisman, A strain of American Elm that is resistant to PHLOEM NECROSIS. It is more upright but not as fast growing as our native American Elm.

		Each
12 to 14 ft., 2 1/2 in. diameter		\$18.00

Pin Oak—Quercus Palustris

Hillenmeyer's Kentucky Grown FRUIT TREES

"The First Crop More Than Pays for the Cost of the Trees"

APPLES

Varieties Arranged in Order of Ripening

SUMMER APPLES

CLOSE. Early red, excellent for home. July 1-5.

EARLY TRANSPARENT. Waxy yellow; early and productive. Sub-acid. July 5-6.

LODI. Yellow, tart, little later than Transparent. July 5-10.

DUCHESS. Early bearing, productive "red" strain. Mildly acid. July 10-15.

GOLDEN SWEET. Yellow; productive. Hasn't a fault. Best sweet. July 20-30.

POLLY EADES. Kentucky-developed. Ripens over a long period. August 5-10.

HYSLOP CRAB. Tart, bright red and productive. Best Crab. August 15-20.

WINTER APPLES

JONATHAN. Red; medium; best quality. Sept. 15-20.

RED DELICIOUS. Highly colored Delicious of same quality. Sept. 20-30.

YELLOW DELICIOUS. Yellow type of standard Delicious. Sept. 30 to Oct. 5.

RED STAYMAN. More highly colored than ordinary Stayman. Oct. 5-10.

TURLEY WINESAP. Rich red; conical; some like it better than Stayman. Oct. 10-15.

ROME BEAUTY. Large; red; tender; sub-acid. Early bearer. Oct. 12-15.

YORK IMPERIAL. Yellow shaded red. Early bearing and best late keeper. Oct. 15-20.

FALL APPLES

WEALTHY. Large. Shaded dark red; tender. Heavy early bearer. Aug. 1 to Sept. 1.

McINTOSH. Red; extra fine quality. Fall or early winter in Kentucky. Aug. 20-25.

PADUCAH. New; red; productive. Better than Rome Beauty. Sept. 5-10.

GRIMES GOLDEN. Yellow; heavy bearing. Excellent quality. Double grafted which is a longer lived tree, available at 25c extra. Sept. 15-20.

PRICES OF APPLES

2- and 3-Year-Old Trees

DWARF FRUIT TREES

We have a limited supply of dwarf fruit trees. All 3 to 4 feet. Varieties as follows:

APPLES: Lodi, McIntosh, Red Delicious, Yellow Delicious. \$3.25 each.

CHERRY: North Star. \$2.50 each.

FEACHES: Elberta, Golden Jubilee, Hale-Haven. \$2.50 each.

PEARS: Bartlett, Seckel. \$3.00 each.

Have a good supply of standard sizes (not dwarf) listed elsewhere on this page.

PEACHES

MIKADO. Early yellow with red blush. Good quality. July 5-10.

REDHAVEN. Early, yellow flesh, skin red, excellent. July 10-15.

RARITAN ROSE. The best early white-fleshed Peach. July 15-18.

GOLDEN JUBILEE. Yellow with distinct blush. July 15-20.

COLORA. Yellow flesh, hardy. July 20-25.

OTHELLO. (July Heath). Only cling-stone on our list. White. July 25.

SOUTH HAVEN. Hardy yellow Peach. Aug. 5-10.

HALE-HAVEN. Yellow with blush. Aug. 5-10.

RICHHAVEN. New, yellow flesh. Aug. 5-10.

BELLE OF GEORGIA. White, with decided blush. Aug. 10-12.

ELBERTA. Large yellow shaded deep red. Aug. 10-12.

J. H. HALE. Large, yellow, shaded red. Aug. 10-15.

AFTERGLOW. Yellow flesh, hardy, excellent quality. August 15-20.

CHERRIES

SWEET

BLACK TARTARIAN. Black; heart-shaped. High quality.

NAPOLEON. Large yellow, sweet. Red blush, firm.

MAY DUKE. Excellent quality; productive.

SUB-ACID

EARLY RICHMOND. Red; medium; one of the earliest and best.

MONTMORENCY. Large; red; late; hardy. One of the best.

PEARS

BARTLETT. Large; golden yellow. Best quality. Aug. 15.

KIEFFER. Large yellow tinted red. Firm; vigorous; productive. Blight-resistant; fair quality. Sept. 10-15.

LINCOLN. Best blight-resistant. High quality. Sept. 1.

MAXINE. High quality dessert Pear. Blight-resistant. Supply limited. One tree per customer.

SECKEL. Brown; small; high quality; frequently called the "Sugar Pear." Ripens well on tree, September 15.

PLUMS

BURBANK. Violet or purple. Large, oval with yellow flesh. Productive and we think the best Japanese variety.

DAMSON. Small, purple, productive, and excellent for preserving.

GREEN GAGE. Best European variety of highest quality. Mid-August.

OMAHA. Large coral fruit with yellow flesh. Vigorous and productive. A hybrid of outstanding merit.

STANLEY PRUNE. Large, sweet, purple Plum with much merit.

APRICOT

TALBERT. Excellent quality. Hardy.

5- to 6-FT. FRUIT TREES CANNOT BE SENT BY PARCEL POST. ONLY 4 to 5 FT. and 3 to 4 FT.

Length limitations prevent us from shipping 5 to 6 ft. fruit trees, by Post. Please specify **Express, Truck or Freight**, and we will ship with transportation charges **collect**. Include price of plants only. Small Fruits, Roses, etc., can be sent by Post, and we ask that you include the amount or percentage specified under each of those items. Thank you.

Red Raspberries

Small Fruits

RASP-BERRIES

Should be in every home garden. Require limited space and produce an abundance of the finest fruit. Set 2 ft. apart; rows 4½ to 5 ft. apart. 50 to 100 plants for ordinary family. We have tested almost all kinds and offer the best.

	12	25	100
Bristol. New black	\$2.00	\$3.50	\$12.00
Indian Summer. Everbearing red	2.00	3.50	12.00
Sunrise. Outstanding red.	2.00	3.50	12.00
Latham. Red; standard	2.00	3.50	12.00

Quotations on larger quantities.

GOOSEBERRIES

DOWNING. Fruit almost round, large, and juicy; whitish green color.

HOUGHTON. Round, medium size, dark red; juicy, sweet. Thin smooth skin. Bush is hardy, very productive, free from mildew, and the best for general purpose in this section.

	Each	3	10
Either variety	\$0.50	\$1.35	\$4.00

DEWBERRIES

LUCRETIA. We consider this the best Dewberry, making a very vigorous growth and fruiting early. The berries are large, jet-black, and of fine flavor. May be allowed to develop on the ground or trained, in either case producing large crops. **12 for \$2.00; 25 for \$3.50; 100 for \$12.00.**

CURRANTS

RED LAKE. By far the most productive of the many kinds we have tested. Color a brilliant red; large berries borne in long clusters along the stems; quality excellent. The white varieties have proved worthless in this climate. **Price: Each 50c; 3 for \$1.35; 10 for \$4.00.**

ASPARAGUS

WASHINGTON. This is the best known variety. It is a strong grower, producing stocks of large size and of finest quality. The fact that it is rust-resistant makes it the ideal Asparagus for all. Our plants, produced on heavy soil, are superior to the little seedlings grown in sand. Every plant is graded and are large, fleshy roots that, with proper care, will be ready to cut the second year. Our freshly dug plants will grow much better than those which are shipped in. Set 100 plants for a family of four. **Strong plants: 25 for \$2.00; 50 for \$3.00; 100 for \$5.00. Ask for prices on larger quantities.**

RHUBARB

EXCELSIOR. Very early, with long stems. Plants vigorous and dependable. **Price: Each 30c; 10 for \$2.50; 100 for \$15.00.**

MacDONALD. Bright high quality Canadian variety, mildly acid. Takes less sugar. Raised from divisions rather than seed. The best. **Each 60c; 5 for \$2.50.** Plant Rhubarb 4x3 feet, covering crowns not over 3 or 4 inches.

For Postage, Packing and Insurance, Add 15% on All the Above Varieties

GRAPES

The most reliable of all fruits. If properly planted, trained and pruned, will last a lifetime. Select a location away from large trees and where they can remain for years. Varieties offered have been tested and proved satisfactory for this section.

BLACK GRAPES

Concord. Best all round Grape.

Fredonia. New. Mid-season. Excellent.

Moore's Early. Best early black.

Sheridan. A late improved Concord.

WHITE GRAPES

Niagara. Best white.

Portland. Best early white.

Any of the Grapes: Strong, two-year vines, 50c each; \$2.25 for 5; \$15.00 for 50.

RED GRAPES

Caco. Medium size. Excellent quality.

Catawba. Best late.

Lindley. Delicious. Midseason.

Lutie. Best early. Sweet and juicy.

BLACKBERRIES

ALFRED. Large, jet-black, juicy, sweet berries. Practically coreless. Earlier than Eldorado and not quite as prolific.

EARLY HARVEST. Extra earliness and productiveness make this type the leading commercial and home variety. Is through with its crop when the wild ones begin to ripen. Hangs onto the canes well, and is a money-maker.

ELDORADO. Later than Alfred; not so subject to disease, and makes heavy, vigorous canes that hold the leaves and fruit well. Given a favorable season with moisture, or grown under mulch, it produces very large, long fruits that are a pride and joy to the grower.

12 for \$2.00	25 for \$3.50
100 for \$12.00	

Eldorado Blackberry

STRAWBERRIES

Strawberries should be planted only in the spring. When set in the fall, with alternate freezing and thawing, they usually heave out of the ground and die. We will have them listed in our spring literature which will also give cultural directions. The following varieties will be offered in **virus-free plants.**

Blakemore Premier Pocahontas Tennessee Beauty
EVERBEARER—Gem
PLANT ONLY IN THE SPRING

A Gift for You

To help you get the best results from your plans and plants we will send absolutely free on request, a copy of this booklet.

"HOW TO PLANT"

The instructions are clear and cover planting, pruning, feeding, spraying, cultivating, and other details. This is a part of the service we give that you may have the greatest success and joy from Hillenmeyer stock. If other questions arise from time to time, write us—we are at your service.

Peonies

The Flowers for Everybody

From the old-fashioned reds and pinks, familiar in our grandmother's gardens, we now have marvelous varieties with better color, form, and all-around quality. Peonies are often rated on the basis of 10 as perfect but we are frank to state that we do not always concur. We have tested hundreds of varieties so as to give our customers the best and find that some of the highest rated kinds just do not perform satisfactorily here in the South.

Peonies should be in every garden. Plant the crowns about 2 or 3 inches deep, use bone meal, see that they get sufficient water at blooming time and you'll be more than pleased if you use HILLENMEYER'S CHOICE ROOTS.

STRONG DIVISIONS—YOUR ASSORTMENT: \$1.00 each; 10 for \$9.00.
For Parcel Post and Insurance, add 15 per cent.

DOUBLE PEONIES

RED

Felix Crousse. Midseason. The most pleasing velvety red, fading to lighter shades as the blossom fades.

Karl Rosenfield. Late midseason. Large; rich velvety crimson. Color striking.

Longfellow. A distinctive, fadeless crimson. Good foliage with strong, stiff stems. Early midseason. Dependable.

Mary Brand. Vivid crimson with silvery sheen which gives it added brilliance. Midseason.

WHITE

Baroness Schroeder. Midseason. Delicate flesh-pink; fading to white with suggestion of heliotrope and gold.

Festiva Maxima. Early. The grandest white Peony. The extra large flowers are pure white, except petals tipped carmine.

Mme. de Verneville. Early. Desirable, free blooming, should be in every collection.

Mrs. Frank Beach. Large, creamy white, free flowering. Very dwarf.

PINK

Edulis Superba. Early. Deep rose. Valued for its fragrance and free blooming.

Georgiana Shaylor. Exquisite shade of soft rose-pink. Midseason. Fragrant.

Lady Alexandra Duff. An unusual delicate flesh-pink. One of the most striking of all Peonies, with extra large, cup-shaped flowers.

Martha Bulloch. Silvery shell-pink at center, deepening to deep rose-pink. Late.

Mons. Jules Elie. Early to midseason. Large, compact; lilac-rose with lighter pink base petals; fragrant. Extra fine.

Reine Hortense. Midseason. Large, flat; flesh to shell-pink; very fragrant. One of the finest.

Samuel Hughes. Late. Fine upright variety with unusual style and color combination—silver-pink. Excellent variety.

Sarah Bernhardt. Late. Very large flowers of apple-blossom-pink, with silver-tipped petals. Vigorous.

Solange. Late. Large, compact. Outer petals delicate, waxy white, deepening toward the center with shades of golden brown. Free bloomer.

Venus. Midseason. Pale hydrangea-pink. Large.

SINGLE PEONIES

This type is distinguished by its five or more large petals surrounding a center of yellow stamens. Most are early and they stand wind and rain well. Very conspicuous.

Duchess of Portland. Delicate shade of flesh-pink; large.

L'Etincelante. Rose-pink, margined silver. One of the best.

Clairette. White.

JAPANESE PEONIES

In these we have five or more guard petals surrounding a center of showy and abortive anthers. The second stage of development into the double type.

Nippon Beauty. Late. Dark red stamens flushed, edged yellow. One of the best Japanese.

Mikado. Rich red with petaloids of pleasing yellow.

Taikoon. Blood-red, yellow anthers. Very showy.

Toro-No-Maki. Pale blush-white, fading to pure white. Whitish staminodes with yellow edges and tips.

PREPAYING POLICY

We wish we could set a schedule for prepay charges, on a percentage basis, as in the past, but since rate increases on practically all forms of transportation are pending, we are unable to do so. All small fruits and Peonies can be shipped by Parcel Post. When you order these items only, include 15% for postage, packing and insurance, if you live within 200 miles of Lexington. On all other stock, please remit the price of the plants only and we will send with **THE TRANSPORTATION CHARGES COLLECT.** Please specify how you want shipped. If you order small fruits or Peonies in combination with other material, do not include postage, since entire shipment may be sent with **THE TRANSPORTATION CHARGES COLLECT.**

If Any of Your Friends Should Want One of These Catalogs Have Them Write Us for Catalog No. 117.

Substitutions

When out of a variety of fruit trees, small fruits or Roses, we sometimes substitute, giving you the closest to it. If this is not satisfactory, mark "No Substitute" on your order.

PLANT FOOD AND MULCHING MATERIALS

Hillenmeyer Lawn Food (10-6-4)

Our own brand made to specifications. High in organic matter and excellent around trees and shrubs, as well as lawns. On lawns apply 15 lbs. per 1000 sq. ft. 25 lbs., \$1.95; 50 lbs., \$3.25; 100 lbs., \$6.25.

Greens & Fairways (G & F) (10-6-4)

This is an excellent fertilizer for lawns and golf courses. May also be used as a general fertilizer around trees and shrubs. It is high in organic matter and has an analysis of 10-6-4. Apply 15 lbs. per 1000 sq. ft., and "water-in."

25 lbs., \$1.95; 50 lbs., \$3.25; 100 lbs., \$6.25.

Peat Moss

No other material is quite its equal for soil conditioning. It will retain 6 to 10 times its dry weight in water, and is free of all weed seeds. As a mulch, especially for Roses and perennials, it has no equal. Sold in bales of approximately 10 bushels which will cover 300 square feet 1 inch deep. Spaded in with manure it has the ability to absorb enormous amounts of fertility which the plants readily take up. Indispensable to good gardening.

POULTRY LITTER. Peat Moss is also the ideal, safe and sanitary material for bedding young poultry.

\$6.00 per bale; 5 bales for \$28.75.

**ALL PRICES SUBJECT TO CHANGE
WITHOUT NOTICE**

Vigoro (6-10-4)

Vigoro is not just an ordinary fertilizer but a complete, balanced, scientifically prepared plant food containing all eleven of the elements necessary for proper development. Use 25 to 50 pounds per 1000 square feet on lawns, one handful to each square foot around Roses, shrubs, and evergreens. "Water-in" after applying. 10 lbs., 95c; 25 lbs., \$1.70; 50 lbs., \$2.50; 100 lbs., \$4.85.

Turf Builder (20-10-5)

This is especially made for feeding grass, though it can be used whenever a complete fertilizer is needed. It is not all chemical but contains vegetable matter, thereby giving immediate and lasting results. Because of its concentration will go much farther than most other fertilizers. If grass is tender, "water-in."

Bag to Treat

2,500 sq. ft.	\$2.75
5,000 sq. ft.	4.50
10,000 sq. ft.	8.85

Fragment Bush Honeysuckle

Hedges The Friendly Way to Fence

A thrifty, green hedge gives more character and beauty to home grounds than any fence ever devised. All hedges should be cut back at least one-third when planting.

Japanese Barberry

(Berberis Thunbergi)

Each year sees an increased use of Japanese Barberry as a hedge plant. The foliage unfolds in early spring, followed by yellow flowers, and later by red berries that remain all winter. The branches are thickly set with small spines that will turn cats and dogs. Plant 18 to 24 inches apart.

	10	50	100
12 to 15 in.	\$3.50	\$15.00	\$30.00

Chinese Privet

(Ligustrum Sinense)

A rapid, semi-evergreen, loose-growing plant that is desirable for hedge or screen. It prunes beautifully and can be kept to almost any height desired. When closely clipped the leaves are quite small and look almost like Boxwood. Occasionally freezes to the ground during a severe winter but always comes back with renewed vigor. Our plants are bushy transplants and should not be compared with light seedlings.

	25	50	100	1000
18 to 24 in.	\$7.00	\$12.50	\$25.00	\$240.00
2 to 3 ft.	8.00	15.00	30.00	290.00
3 to 4 ft.	9.50	17.50	35.00	330.00

Fragrant Bush Honeysuckle

(Lonicera Fragrantissima)

One of the most satisfactory tall growing screen or hedge plants. We do not recommend it where you want to keep it under 3 1/2 to 4 feet. It is strong, vigorous, hardy, dense and holds its foliage well into the winter. The small, cream, bell-shaped blossoms appear in early spring and are quite fragrant. Normally growing into a hedge 6 to 12 feet. Whether kept pruned or permitted to grow naturally, it is one of our most useful shrubs to screen out objectionable views or to give privacy to your property. Plant 12 to 24 inches apart, depending on the density desired. Shorten back at least one-half after planting.

	10	50	100
18 to 24 in., 2 canes or more	\$4.00	\$15.00	\$30.00
2 to 3 ft., light, 3 canes	5.00	20.00	40.00
2 to 3 ft., heavy, 4 canes or more	6.00	25.00	50.00
3 to 4 ft., light, 3 canes	6.00	25.00	50.00
3 to 4 ft., heavy, 4 canes or more	7.00	30.00	60.00

California Privet (Ligustrum Ovalifolium)

Upright in growth, dark, thick, almost evergreen foliage and one of the most popular hedge plants. Can be pruned easily and does not require clipping as often as the Chinese Privet and is somewhat hardier.

Ibodium Privet (Ligustrum Ibodium)

This comparatively new Privet has proven hardy under the severe tests of the past few years. It has many characteristics of the California Privet though not as evergreen, and is as hardy as its other parent, the Ibota Privet. This superior Privet is a welcomed addition since it can be grown and sold at the price of California Privet.

PRICES ON CALIFORNIA AND IBOLIUM PRIVET

	25	50	100	1000
18 to 24 in.	\$5.75	\$10.00	\$20.00	\$190.00

Plant Privet 6 to 12 inches apart.

Climbing and Creeping Vines

Campsis Radicans

(Trumpet creeper)

A vigorous, woody vine, bearing scarlet flowers followed by long pods. Valuable for covering old walls, trees, stumps, etc. \$1.00 each; 5 for \$4.50.

Celastrus - Bittersweet

CELASTRUS scandens (American Bittersweet). An unusually attractive native vine because of its showy red berries in the fall and early winter. Vigorous. \$1.00 each; 5 for \$4.50.

Clematis

CLEMATIS jackmani. The most popular Chinese Clematis. Has large, purple flowers. \$1.25 each.
C. paniculata (Sweet Autumn Clematis). The small-flowered, fragrant, white "star" variety that blooms so profusely. \$1.00 each; 5 for \$4.50.

Euonymus

EUONYMUS radicans (Common Winter Creeper Euonymus). A slow growing vine that adheres to masonry and remains deep green all winter. \$1.00 each; 5 for \$4.50.

E. fortunei acutus. Small leaved trailing type, excellent for ground cover. \$1.00 each; 5 for \$4.50. (Ask for special prices in quantity.)

E. fortunei coloratus (Bronze Winter Creeper). More rapid growing than others of this family. Clings exceptionally well. Turns a rich bronze during the winter months. \$1.00 each; 5 for \$4.50.

E. fortunei vegetus (Big-Leaf Winter Creeper). Another evergreen clinging vine of moderate habit, perfectly hardy, and especially valuable because of the profusion of berries that hang on for several weeks. \$1.00 each; 5 for \$4.50.

Hedera - Ivy

HEDERA helix (English Ivy). The most popular evergreen vine. Has large, deep green, glossy foliage, and is unexcelled for covering walls in shady and cool places, or used as a most satisfactory ground cover under trees or in shady places. Strong vines. 40c each; 3 for \$1.00; \$25.00 per 100.

Lonicera - Honeysuckle

LONICERA japonica halliana (Hall's Japanese Honeysuckle). An evergreen twining vine that is so much used to cover fences and trellises. Used largely to hold roadside banks from erosion and will flourish in poor soil. 25c each; 5 for \$1.00.

L. sempervirens (Trumpet Honeysuckle). Attractive, trumpet-shaped flowers of bright scarlet. \$1.00 each; 5 for \$4.50.

Parthenocissus - Ivy

PARTHENOCISSUS quinquefolia (Virginia Creeper). The five-leaved Ivy that is valuable for covering walls, old trees, fences, etc. It will grow anywhere and colors brilliantly in the fall. \$1.00 each; 5 for \$4.50.

P. tricuspidata (Boston Ivy). The best of the self-clinging vines. Foliage is deep green and very dense. Slow to start, but vigorous when established. \$1.00 each; 5 for \$4.50.

P. Lowi (Dwarf Boston Ivy). Like Boston Ivy it clings well. Small, dainty leaf. Ideal for restricted areas, or where light coverage is desired. \$1.25 each; 5 for \$5.75.

Polygonum - Fleece Vine

POLYGONUM auberti (Silver Vine Fleeceflower). A quick-growing vine with small, attractive foliage. The flowers are very small, lacy and white. Blooms from August to frost. \$1.00 each; 5 for \$4.50.

Pueraria - Kudzu

PUERARIA thunbergi (Thunberg Kudzu Bean). The most rapid growing, twining vine known today. The large, purple flowers are sweetly scented. \$1.00 each; 5 for \$4.50.

Ask for special prices in quantity.

Vinca Minor

(Periwinkle or Trailing Myrtle)

A trailing evergreen plant used as a ground cover under trees or other shady situations.

	Each	5	100
Pots	\$0.35	\$1.50	\$25.00
Bare roots	.30	1.25	20.00

Wistaria

WISTARIA sinensis (Chinese Wistaria). A rampant, clinging vine that has the robust vigor of a wild Grape and the matchless beauty of a rare exotic. Flowers in large, drooping clusters. There is so much complaint of Wistaria not blooming we are offering plants that are grafted from blooming wood. Wistaria always needs to be well established to bloom freely. Purple and White. \$1.25 each; 5 for \$5.75.

ROSES

We are not listing Roses in this catalog, but will mail a special folder listing choice varieties in February, 1959. If you do not receive your copy write or phone for it.

Cultivated Kentucky Blue Grass Seed

Here in the heart of the famed Blue Grass Section of Kentucky, the best seed in the world is produced. We are pleased, however, to offer something NEW in the way of lawn seed—CULTIVATED BLUE GRASS SEED. The fields from which this seed was stripped have been cultivated, fertilized, treated and sprayed before being cleaned. In our test plots we have found this seed to be faster germinating, stronger growing, and deeper rooted than other types of seed. We offer ONLY the new CULTIVATED KENTUCKY BLUE GRASS SEED, and are using it in both the Sunny and Shady mixtures listed at right. PLANT THE BEST.

SUNNY LAWN MIX

For sowing new lawns or where you have a thin stand, we recommend our Sunny Lawn Mixture. This consists of Blue Grass, White Clover, and other varieties for quick effect.

SHADY LAWN MIX

A scientific mixture of grasses to be used in shady locations on which the sun does not shine more than 4 or 5 hours per day.

Sow 2 to 3 lbs. to 1000 sq. ft. on thin lawns, 4 to 6 lbs. to 1000 sq. ft. on new lawns. Same rate for Sunny Mixture and Blue Grass.

ALL GRASS SEED PRICES
\$1.00 per lb.; 5 lbs. for \$4.00.
